Notice Concerning Kansas/Federal Water Pollution Control Permits and Applications

In accordance with Kansas Administrative Regulations 28-16-57a through 63, 28-18-1 through 17, 28-18a-1 through 31 and 33, 28-16-150 through 154, 28-46-7, and the authority vested with the state by the administrator of the U.S. Environmental Protection Agency, various draft water pollution control documents (permits, notices to revoke and reissue, notices to terminate) have been prepared and/or permit applications have been received for discharges to waters of the United States and the state of Kansas for the class of discharges described below.

The proposed actions concerning the draft documents are based on staff review, applying the appropriate standards, regulations, and effluent limitations of the state of Kansas and the Environmental Protection Agency. The final action will result in a Federal National Pollutant Discharge Elimination System Authorization and/or a Kansas Water Pollution Control permit being issued, subject to certain conditions, revocation, and reissuance of the designated permit or termination of the designated permit.

Public Notice No. KS-AG-21-281/287

Pending Permits for Confined Feeding Facilities

Name and Address of Applicant	Legal Description	Receiving Water
LSI Countryside Feeding, LLC Art Sauder 285 K-61 Hwy. Great Bend, KS 67546	NW/4 of Section 20 T21S, R04W McPherson County	Little Arkansas River Basin

Kansas Permit No. A-LAMP-T001

The proposed action is to reissue an existing state permit for a private truck washing facility for livestock transport vehicles. The facility consists of one enclosed washbay, a concrete solids separation basin, a solids stacking area and an earthen retention control structure. The facility will wash an average of 15 trailers/trucks per week. This facility has an approved Waste Management Plan on file with KDHE.

(continued)

Name and Address of Applicant	Legal Description	Receiving Water
Keating Farms Patrick J. Keating 18750 Parallel Rd. Wheaton, KS 66521	NE/4 of Section 3 T06S, R10E Pottawatomie County	Big Blue River Basin

Kansas Permit No. A-BBPT-S007

The proposed action is to reissue an existing state permit for an existing facility for 350 head (140 animal units) of swine more than 55 pounds and 830 head (83 animal units) of swine 55 pounds or less, for a total of 1,180 head (223 animal units) of swine. There will be no change in the operation or permitted number of animal units from the previous permit. This facility has an approved Waste Management Plan on file with KDHE.

Name and Address of Applicant	Legal Description	Receiving Water
Kent Rock 940 Lark Rd. Hope, KS 67451	SW/4 of Section 20 T15S, R03E Dickinson County	Smoky Hill River Basin

Kansas Permit No. A-SHDK-B030

The proposed action is to reissue an existing state permit for an existing facility for 450 head (225 animal units) of cattle weighing 700 pounds or less. There will be no change in the operation or permitted number of animal units from the previous permit. This facility has an approved Waste Management Plan on file with KDHE.

Name and Address of Applicant	Legal Description	Receiving Water
Sandy Road Farms, LLC – 14 Breeding 23649 Road 13 Kismet, KS 67869	SE/4 of Section 14 T33S, R31W Seward County	Cimarron River Basin

Kansas Permit No. A-CISW-H005
Federal Permit No. KS0091766

The proposed action is to reissue an existing NPDES permit for an existing facility for 2,720 head (1,088 animal units) of swine weighing more than 55 pounds and 4,000 head (400 animal units) of swine weighing 55 pounds or less; for a total of 1,488 animal units of swine. There will be no change in the operation or permitted number of animal units from the previous permit. This facility has an approved Nutrient Management Plan on file with KDHE

Name and Address of Applicant	Legal Description	Receiving Water
Dale E. Maneth 1171 NW 110 Rd. Olmitz, KS 67564	NW/4 of Section 4 T18S, R15W Barton County	Upper Arkansas River Basin

Kansas Permit No. A-UABT-B004

The proposed action is to reissue an existing state permit for an existing facility for 400 head (400 animal units) of confined cattle weighing greater than 700 pounds. There will be no change in the operation or permitted number of animal units from the previous permit. This facility has an approved Waste Management Plan on file with KDHE.

Name and Address of Applicant	Legal Description	Receiving Water
Diedrick Farms, Inc. Shari Diedrick 688 Evergreen Rd. Tescott, KS 67484	NE/4 of Section 7 T12S, R04W Ottawa County	Saline River Basin

Kansas Permit No. A-SAOT-C001
Federal Permit No. KS0094625

The proposed action is to reissue an existing NPDES permit for an existing facility for 500 head (500 animal units) of cattle weighing greater than 700 pounds, and 600 head (300 animal units) of cattle weighing 700 pounds or less. There will be no change in the operation or permitted number of animal units from the previous permit.

Name and Address of Applicant	Legal Description	Receiving Water
KRB Pork, Inc. Robert A. Rogge 4th and Jade Rd. Palmer, KS 66962	SE/4 of Section 10 T05S, R02E Washington County	Lower Republican River Basin

Kansas Permit No. A-LRWS-H007
Federal Permit No. KS0094956

The proposed action is to approve an update to the Nutrient Management Plan (NMP) received for this existing facility currently permitted for 8,000 head (3,200 animal units) of swine weighing more than 55 pounds. The facility’s NMP was updated to include a change in the application rate limitation for their fields. One of the field’s application rate limitation became less restrictive than the previous permit. There are no changes to the permit or in the permitted number of animal units. Only the updated portion of the Nutrient Management Plan is subject to comment. This facility has an approved Nutrient Management Plan on file with KDHE.

Public Notice No. KS-Q-21-084/085

The requirements of the draft permit public noticed below are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28(b-g), and Federal Surface Water Criteria.

Name and Address of Applicant	Receiving Stream	Type of Discharge
N.R. Hamm Quarry, Inc. PO Box 17 Perry, KS 66073	Kansas River via Stranger Creek via Rock Creek	Process Wastewater

Kansas Permit No. I-KS96-PO01
Federal Permit No. KS0117358

Legal Description: SE¼ of S2 and W½ of NE¼ of S11, NE¼ of NW¼ of S11, T9S, R21E, Leavenworth County, Kansas

Facility Name: Leavenworth Quarry #17

The proposed action is to reissue an existing State/NPDES permit for an existing facility. This facility is a limestone quarrying and crushing operation with some washing, however all wash water is recycled and not discharged. Outfalls 001A1 and 002A1 consist of pit drainage and stormwater runoff that are treated by settling ponds before discharging. The proposed permit contains generic language to protect the waters of the state.

Name and Address of Applicant	Receiving Stream	Type of Discharge
Heartland Cement 1765 Limestone Ln. Independence, KS 67301	Verdigris River via Rock Creek via Unnamed Tributary	Process Wastewater

Kansas Permit No. I-VE23-PO06
Federal Permit No. KS0100200

Legal Description: NE¼ of S4 and NW¼ of S5, T33S, R16E, Montgomery County, Kansas

Facility Name: Independence Quarry

The proposed action is to reissue an existing State/NPDES permit for an existing facility. This facility is a limestone quarrying and crushing operation with no washing. Outfalls 001, 002, and 003 consist of mainly stormwater runoff. The discharge from Outfall 001 is treated by settling pond, before discharging. A portion of this site has been reclaimed. The cement distribution terminal to the north is covered by a separate, industrial stormwater permit (G-VE23-0007). The proposed permit contains generic language to protect the waters of the state.

Public Notice No. KS-PT-21-007

The requirements of the draft permit public noticed below are pursuant to the Kansas Administrative Regula-

tions 28-16-82 through 28-16-98, and U.S. Environmental Protection Agency Pretreatment Regulation 40 CFR 403.

Name and Address of Applicant	Receiving Facility	Type of Discharge
Roy Applequist 107 S. Center Assaria, KS 67416	Smith Center Municipal Wastewater Treatment Plant	Process Wastewater

Kansas Permit No. P-SO38-0001
Federal Permit No. KSP000121

Facility Name: Applequist Manufacturing

Facility Location: 618 E. US-36 Hwy., Smith Center, KS 67967

The proposed action is to issue a new pretreatment permit for a new facility. This facility manufactures small trailer implements, air seeder components, agricultural land leveling machines, and utility trailers. Steel parts are welded, phosphated, and painted to produce the final product. Regulated wastes consist of wastewater from a conversion coating (phosphating) operation, which consists of a process and a rinse tank. Process wastewater is treated with a chemical precipitation system and discharged via Outfall 001A1. The proposed permit contains limits for pH, total toxic organics, cadmium, chromium, copper, lead, nickel, silver, zinc, and cyanide.

Persons wishing to comment on or object to the draft documents and/or permit applications must submit their comments in writing to the Kansas Department of Health and Environment (KDHE) if they wish to have the comments or objections considered in the decision-making process. All written comments regarding the draft documents, application or registration notices received on or before October 9, 2021, will be considered in the formulation of the final determination regarding this public notice. Please refer to the appropriate Kansas document number (KS-AG-21-281/287, KS-Q-21-084/085, KS-PT-21-007) and name of the applicant/permittee when preparing comments.

All comments received will be responded to at the time the Secretary of Health and Environment issues a determination regarding final agency action on each draft document/application. If response to any draft document/application indicates significant public interest, a public hearing may be held in conformance with K.A.R. 28-16-61 (28-46-21 for UIC). A request for public hearing must be submitted in writing and shall state the nature of the issues proposed to be raised during the hearing.

Comments or objections for agricultural related draft documents, permit applications, registrations or actions should be submitted to the attention of Stuart Klaus, Livestock Waste Management Section at the KDHE, Bureau of Environmental Field Services (BEFS), 1000 SW Jackson, Suite 430, Topeka, KS 66612. Comments or objections for all other proposed permits or actions should be sent to Michael Beezhold at the KDHE, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, KS 66612.

All draft documents/applications and the supporting information including any comments received are on file and may be inspected at the offices of the KDHE. For agricultural related draft documents or applications an appointment can be scheduled, or copies requested by contacting Rachel Hammond, BEFS, Livestock Waste Management Section at 1000 SW Jackson St., Suite 430, Topeka, KS 66612, telephone 785-296-0076 or email at

kdhe.feedlots@ks.gov. For all other proposed permits or actions an appointment can be scheduled, or copies requested by contacting Christopher Zwiener, Bureau of Water, 1000 SW Jackson St., Suite 420, Topeka, KS 66612, telephone 785-296-3056 or email at Christopher.Zwiener@ks.gov. These documents are available upon request at the copying cost assessed by KDHE. Application information and components of plans and specifications for all new and expanding swine facilities are available at <http://www.kdheks.gov/feedlots>. Division of Environment offices are open from 8:00 a.m. to 5:00 p.m., Monday through Friday, excluding holidays.

Doc. No. 049423

State of Kansas

Department of Health and Environment

Notice Concerning Proposed Kansas Air Quality Class I Operating Permit and Air Quality Construction Permit

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed air quality operating permit and construction permit. East Kansas Agri-Energy, LLC has applied for a Class I operating permit in accordance with the provisions of K.A.R. 28-19-510 et al. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards, and requirements applicable to each source; and the monitoring, record keeping, and reporting requirements applicable to each source as of the effective date of permit issuance. Notice is also given that the KDHE is soliciting comments regarding a proposed air quality construction permit in accordance with the provisions of K.A.R. 28-19-300 to limit the facility wide potential to emit below prevention of significant deterioration (PSD) major source thresholds and remain as hazardous air pollutant (HAP) area source.

East Kansas Agri-Energy, LLC, PO Box 225, Garnett, Anderson County, KS 66032, owns and operates an Ethanol and Renewable Diesel Plant located at 1304 S. Main St., Garnett, Anderson County, KS 66032.

A copy of the proposed permits, permit applications, all supporting documentation, and all information relied upon during the permit application review process are available for public review, during normal business hours, at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 and at the Southeast District Office, 308 W. 14th St., Chanute, KS 66720. To obtain or review the proposed permit and supporting documentation, contact Rumela Bhadra, 785-291-3271, at the central office of KDHE or Caitlin Brown, 620-860-7235, at the Southeast District Office. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <http://www.kdheks.gov/bar/publicnotice.html>.

(continued)

Please direct written comments or questions regarding the proposed permit to Rumela Bhadra, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received no later than 12:00 p.m. Monday, October 11, 2021.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Rumela Bhadra, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366, no later than 12:00 p.m. Monday, October 11, 2021, in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency (EPA) has a 45-day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Keith Johnson, U.S. EPA, Region 7, Air Permitting and Compliance Branch, 11201 Renner Blvd., Lenexa, KS 66219, 913-551-7960, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

Department of Health and Environment

Notice Concerning Proposed Kansas Air Quality Class I Operating Permit Renewal

Notice is hereby given that the Kansas Department of Health and Environment (KDHE) is soliciting comments regarding a proposed air quality operating permit. Textron Aviation – East Campus has applied for a Class I operating permit renewal in accordance with the provisions of K.A.R. 28-19-510 et al. The purpose of a Class I permit is to identify the sources and types of regulated air pollutants emitted from the facility; the emission limitations, standards, and requirements applicable to each source; and the monitoring, record keeping, and reporting requirements applicable to each source as of the effective date of permit issuance.

Textron Aviation – East Campus, 9709 E. Central, Wichita, KS 67206, owns and operates an aircraft manufacturing facility located at 9709 E. Central, Wichita, Sedgwick County, KS 67206.

A copy of the proposed permit, permit application, all supporting documentation, and all information re-

lied upon during the permit application review process are available for public review during normal business hours of 8:00 a.m. to 5:00 p.m. at the KDHE, Bureau of Air (BOA), 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366 and at the South Central District Office, 300 W. Douglas, Suite 700, Wichita, KS 67202. To obtain or review the proposed permit and supporting documentation, contact Eric Parker, 785-296-4174, at the central office of the KDHE or Allison Herring, 316-337-6042, at the South Central District Office. The standard departmental cost will be assessed for any copies requested. The proposed permit, accompanied with supporting information, is available, free of charge, at the KDHE BOA Public Notice website at <http://www.kdheks.gov/bar/publicnotice.html>.

Please direct written comments or questions regarding the proposed permit to Eric Parker, KDHE, BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366. In order to be considered in formulating a final permit decision, written comments must be received no later than 12:00 p.m. Monday, October 11, 2021.

A person may request a public hearing be held on the proposed permit. The request for a public hearing shall be in writing and set forth the basis for the request. The written request must be submitted to Eric Parker, KDHE BOA, 1000 SW Jackson, Suite 310, Topeka, KS 66612-1366, no later than 12:00 p.m. Monday, October 11, 2021 in order for the Secretary of Health and Environment to consider the request.

The U.S. Environmental Protection Agency (EPA) has a 45-day review period, which will start concurrently with the public comment period, within which to object to the proposed permit. If the EPA has not objected in writing to the issuance of the permit within the 45-day review period, any person may petition the administrator of the EPA to review the permit. The 60-day public petition period will directly follow the EPA's 45-day review period. Interested parties may contact KDHE to determine if the EPA's 45-day review period has been waived.

Any such petition shall be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided for in this notice, unless the petitioner demonstrates that it was impracticable to raise such objections within such period, or unless the grounds for such objection arose after such period. Contact Keith Johnson, U.S. EPA, Region 7, Air Permitting and Compliance Branch, 11201 Renner Blvd., Lenexa, KS 66219, 913-551-7960, to determine when the 45-day EPA review period ends and the 60-day petition period commences.

Department of Transportation

Notice to Consulting Firms

Background and Purpose of Project

The Kansas Department of Transportation (KDOT) is seeking a consultant to provide construction inspection services for projects 31-70 KA-2365-01 and 106 KA-6092-01.

- Project 31-70 KA-2365-01 is the reconstruction of K-31 in Osage County. The project location is from Osage City east to US-75.
- Project 106 KA-6092-01 is highway signing improvements on K-130, US-50, US-56, K-78, K99 and K-170 in Lyon, Chase, Wabaunsee, Osage, and Greenwood Counties.

Schedule/Deadlines

Request for Proposals (RFPs) are due at or before 12:00 p.m. (CST) September 24, 2021, to be delivered via email to KDOT.DesignContracts@ks.gov. Evaluation and ranking of submissions will occur on or about October 4, 2021, after which time all firms that submitted will be notified of the selection. Negotiations with the most highly ranked firm to commence on or about October 8, 2021. An agreement should be in place on or about October 22, 2021.

- Construction for Project 31-70 KA-2365-01 began in May 2021 with an open to traffic date of September 30, 2022, and an overall calendar completion date of December 2, 2022. The construction inspection services requested are expected to begin urgently.
- Project letting for 106 KA-6092-01 is September 2021. The project has 155 working days with an anticipated Notice to Proceed late 2021 or early 2022.

Scope of Services to be Performed

The project manager and inspectors must be capable of inspecting any work on the project, which includes grading, subgrade/base, concrete, HMA plant, HMA roadway, traffic control, seeding, erosion control, signing, CMS or AASHTOWare data entry, all project records, all project paperwork, and final paperwork, etc. Project records and paperwork including but not limited

(continued)

ed to: diary, pay quantities, certifications, sample identifications, change orders, pay estimates, monitoring subcontractor payments, and monitoring contractor's payrolls, etc. Records and paperwork must be submitted accurately and timely. For project 106 KA-6092-01 provide project management and all inspectors as needed to ensure inspection and material testing for this project are done correctly. For project 31-70 KA-2365-01 KDOT anticipates a need for four or five inspectors to supplement KDOT staff but the number of required inspectors will fluctuate throughout the project depending on the contractor's schedule and how they pursue the work. Provide all the equipment necessary to inspect and test materials.

Instructions for Proposal

No costs shall be contained in the proposal. The technical proposal must not exceed four (4) pages total (including any cover letter, index, etc.) and 2MB to address the pertinent topics. The subject line of the reply email and the PDF file name must read "31-70 KA-2365-01_106 KA-6092-01_FIRM NAME." Submittals will consist of the technical proposal and a completed and signed Special Attachment No. 8 ("Tax Clearance Certificate") and a signed Special Attachment No. 10 ("Policy Regarding Sexual Harassment"). Completed Special Attachments do not count against the four-page technical proposal submission. All these forms are attached to the original email announcement.

Proposals shall indicate the consultant's ability to meet the project inspection needs described above. Proposals shall describe any processes or procedures, including best practices, that will be used to perform tasks and to produce the desired results described above under "Scope of Services to be Performed." The proposal shall also include items such as:

- Name and work history of project manager for 106 KA-6092-01
- History of providing inspection services on similar projects
- Availability of staff
- Familiarity with KDOT standards and specifications
- Any subconsultant and their role in performing the services on the project
- Names, certifications, and experience of all inspectors that will be assigned to the project
- Anticipated time to close out project paperwork

Evaluation Factors

Proposals will be evaluated based on the factors listed below, evenly weighted, to rank the most qualified firm in order of preference as first, second, third, etc. Evaluation factors include:

1. How the consultant plans to meet the fluctuating inspection needs of the project;
2. Employee names, certifications and qualifications proposed for services;
3. Past performance history on similar projects (list project numbers) for KDOT;
4. Anticipated time to close out project paperwork;
5. Proximity of inspectors to project;
6. Types of direct expenses anticipated (lodging, mileage, etc.).

The highest ranked firm will be asked to enter into negotiations with KDOT for an agreement. In the event KDOT cannot reach agreement with the highest ranked firm, it will terminate negotiations with such firm and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives.

Exhibits to this Technical Proposal Request

- Special Attachment No. 8 ("Tax Clearance Certificate")
- Special Attachment No. 10 ("Policy Regarding Sexual Harassment")

Contract Terms and Conditions

A standard KDOT project inspection agreement will be used for this project. Current rate factors will be used for compensation, and Special Attachments for the Kansas "Tax Clearance Certificate" and the "Policy Regarding Sexual Harassment" will become attachments to the contract.

Questions about this request for proposal shall be sent via email to KDOT.DesignContracts@ks.gov.

Interim Contracts Engineer

Doc. No. 049432

State of Kansas

Department of Transportation

Notice to Consulting Firms

Background and Purpose of Project

The Kansas Department of Transportation (KDOT) is seeking a consultant to provide construction inspection services for projects 77-31 KA-2367-05 and 77-31 KA-4638-02 (which are state tied) as well as 57-31 KA-5678-01 (which is being executed in the same county).

- Project 77-31 KA-2367-05 major work involves the Old US-77 and the Old Milford Road/Rifle Range Road intersections and their side road realignments along US-77 and realignments of other minor side roads along US-77 and K-57. The project location is from just south of Old Milford Road north to the north junction of K-57 on US-77 in Geary County.
- Project 77-31 KA-4638-02 is guardrail upgrades. The project location is from Rucker Road north to the Geary/Riley County line.
- Project 57-31 KA-5678-01 is bridge repair. The project location is bridge #078 over Clark Creek on K-57 3.14 miles southeast of I-70 in Geary County.

Schedule/Deadlines

Request for Proposals (RFPs) are due at or before 12:00 p.m. (CST) September 24, 2021, to be delivered via email to KDOT.DesignContracts@ks.gov. Evaluation and ranking of submissions will occur on or about October 4, 2021, after which time all firms that submitted will be notified of the selection. Negotiations with the most highly ranked firm to commence on or about October 8, 2021. An agreement should be in place on or about October 22, 2021.

The 77-31 projects are scheduled for letting in October 2021. The anticipated start date is December 1, 2021. The project has an open to traffic date of September 15, 2023,

with an overall calendar completion date of December 15, 2023.

The 57-31 project has 70 working days with an anticipated Notice to Proceed in March 2022.

Scope of Services to be Performed

The selected consultant must have inspectors of inspecting the whole of all involved projects, which include grading, subgrade/base, concrete, HMA plant, HMA roadway, RCBs, signing, pavement marking, guardrail, traffic control, bridge repair, Portland cement concrete overlay, PCCP undersealing, CMS or AASHTOWare data entry, all project records, all project paperwork, and final paperwork, etc. Project records and paperwork including but not limited to: diary, pay quantities, certifications, sample identifications, change orders, pay estimates, monitoring subcontractor payments, and monitoring contractor’s payrolls, etc. Records and paperwork must be submitted accurately and timely. The consultant will be expected to provide project management and all inspectors as needed to ensure inspection and material testing for these projects are done correctly. The number of required inspectors will fluctuate throughout the project depending on the contractor’s schedule and how they pursue the work. Work may be suspended for the winters and resume in springs. Provide all the equipment necessary to inspect and test materials.

Instructions for Proposal

No costs shall be contained in the proposal. The technical proposal must not exceed five (5) pages total (including any cover letter, index, etc.) and 2MB to address the pertinent topics. The subject line of the reply email and the PDF file name must read “77-31 KA-2367-05 and -4638-02_57-31 KA-5678-01_FIRM NAME.” Submittals will consist of the technical proposal and a completed and signed Special Attachment No. 8 (“Tax Clearance Certificate”) and a signed Special Attachment No. 10 (“Policy Regarding Sexual Harassment”). Completed Special Attachments do not count against the five-page technical proposal submission. All these forms are attached to the original email announcement.

Proposals shall indicate the consultant’s ability to meet the project inspection needs described above. Proposals shall describe any processes or procedures, including best practices, that will be used to perform tasks and to produce the desired results described above under “Scope of Services to be Performed.” The proposal shall also include items such as:

- Name and work history of project manager
- History of providing inspection services on similar projects
- Availability of staff
- Familiarity with KDOT standards and specifications
- Any subconsultant and their role in performing the services on the project
- Names, certifications, and experience of all inspectors that will be assigned to the project
- Anticipated time to close out project paperwork

Evaluation Factors

Proposals will be evaluated based on the factors listed below, evenly weighted, to rank the most qualified firm

in order of preference as first, second, third, etc. Evaluation factors include:

1. How the consultant plans to meet the fluctuating inspection needs of the project;
2. Project manager name, certifications, and qualifications proposed for services;
3. Past performance history on similar projects (list project numbers) for KDOT;
4. Anticipated time to close out project paperwork;
5. Proximity of inspectors to project;
6. Types of direct expenses anticipated (lodging, mileage, etc.).

The highest ranked firm will be asked to enter into negotiations with KDOT for an agreement. In the event KDOT cannot reach agreement with the highest ranked firm, it will terminate negotiations with such firm and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives.

Exhibits to this Technical Proposal Request

- Special Attachment No. 8 (“Tax Clearance Certificate”)
- Special Attachment No. 10 (“Policy Regarding Sexual Harassment”)

Contract Terms and Conditions

A standard KDOT project inspection agreement will be used for this project. Current rate factors will be used for compensation, and Special Attachments for the Kansas “Tax Clearance Certificate” and the “Policy Regarding Sexual Harassment” will become attachments to the contract.

Questions about this request for proposal shall be sent via email to KDOT.DesignContracts@ks.gov.

Interim Contracts Engineer

Doc. No. 049433

State of Kansas

Department of Transportation

Notice to Consulting Firms

Background and Purpose of Project

The Kansas Department of Transportation (KDOT) is seeking a consultant to provide construction inspection services for projects 177-9 KA-2368-01 and 177-31 KA-2369-01. The projects involve grading and surfacing improvements on K-177 in Geary and Morris County.

Schedule/Deadlines

Request for Proposals (RFPs) are due at or before 12:00 p.m. (CST) September 24, 2021, to be delivered via email to KDOT.DesignContracts@ks.gov. Evaluation and ranking of submissions will occur on or about October 4, 2021, after which time all firms that submitted will be notified of the selection. Negotiations with the most highly ranked firm to commence on or about October 8, 2021. An agreement should be in place on or about October 22, 2021. The contractor is expected to start the project around October 2021, this start date could move based

(continued)

on contractor's schedule. The calendar completion date is October 13, 2023.

Scope of Services to be Performed

The inspectors must be capable of inspecting any work on the project, which includes grading, subgrade/base, concrete, HMA roadway, HMA plant, base, bridges, RCB, Signing, seeding, erosion control, pavement marking, traffic control, CMS or AASHTOWare data entry, all project records, all project paperwork, and final paperwork, etc. Project records and paperwork including but not limited to: diary, pay quantities, certifications, sample identifications, change orders, pay estimates, monitoring subcontractor payments, and monitoring contractor's payrolls, etc. Records and paperwork must be submitted accurately and timely. Provide inspectors as needed to ensure inspection and material testing for this project are done correctly. The number of required inspectors will fluctuate throughout the project depending on the contractor's schedule and how they pursue the work. The consultant will provide a lead inspector for structures, a lead inspector for grading and a lead inspector for HMA. The consultants will report directly to the KDOT project manager and are expected to serve as integral members of the Marion Construction Office. Consultants are expected to be experienced and able to work with minimal supervision. Consultants should also anticipate working with and providing training to newer KDOT employees. Work may be suspended for the winters and resume in springs. Provide all the equipment necessary to inspect and test materials.

Instructions for Proposal

No costs shall be contained in the proposal. The technical proposal must not exceed four (4) pages total (including any cover letter, index, etc.) and 2MB to address the pertinent topics. The subject line of the reply email and the PDF file name must read "177-9 KA-2368-01_77-31 KA-2369-01_FIRM NAME." Submittals will consist of the technical proposal and a completed and signed Special Attachment No. 8 ("Tax Clearance Certificate") and a signed Special Attachment No. 10 ("Policy Regarding Sexual Harassment"). Completed Special Attachments do not count against the four-page technical proposal submission. All these forms are attached to the original email announcement.

Proposals shall indicate the consultant's ability to meet the project inspection needs described above. Proposals shall describe any processes or procedures, including best practices, that will be used to perform tasks and to produce the desired results described above under "Scope of Services to be Performed." The proposal shall also include items such as:

- Name and work history of lead inspectors for structures, grading and HMA
- History of providing inspection services on similar projects
- Availability of staff
- Familiarity with KDOT standards and specifications
- Any subconsultant and their role in performing the services on the project
- Names, certifications, and experience of all inspectors that will be assigned to the project
- Anticipated time to close out project paperwork

Evaluation Factors

Proposals will be evaluated based on the factors listed below, evenly weighted, to rank the most qualified firm in order of preference as first, second, third, etc. Evaluation factors include:

1. How the consultant plans to meet the fluctuating inspection needs of the project;
2. Inspectors' names, certifications and qualifications proposed for services;
3. Past performance history on similar projects (list project numbers) for KDOT;
4. Anticipated time to close out project paperwork;
5. Proximity of inspectors to project;
6. Types of direct expenses anticipated (lodging, mileage, etc.).

The highest ranked firm will be asked to enter into negotiations with KDOT for an agreement. In the event KDOT cannot reach agreement with the highest ranked firm, it will terminate negotiations with such firm and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives.

Exhibits to this Technical Proposal Request

- Special Attachment No. 8 ("Tax Clearance Certificate")
- Special Attachment No. 10 ("Policy Regarding Sexual Harassment")

Contract Terms and Conditions

A standard KDOT project inspection Agreement will be used for this project. Current rate factors will be used for compensation, and Special Attachments for the Kansas "Tax Clearance Certificate" and the "Policy Regarding Sexual Harassment" will become attachments to the contract.

Questions about this request for proposal shall be sent via email to KDOT.DesignContracts@ks.gov.

Ben Asnicar, PE
Interim Contracts Engineer

Doc. No. 049435

State of Kansas

Department of Transportation

Request for Information

Introduction

Through this Request for Information (RFI), the Kansas Department of Transportation (KDOT) seeks to gather relevant information from industry stakeholders and potential applicants to help establish program criteria for determining eligibilities, technical specifications, station locations, and other program elements to subsequently aid in the development of a Request for Proposals (RFP). The eventual RFP will assist KDOT in administering Volkswagen Mitigation Trust Funds for the Electric Ve-

(continued)

hicle Direct Current Fast-Charging (EV DCFC) Station Installation Program.

The following sections outline draft program elements and expectations. Please review all sections and follow the guidance provided in Section 9 “Instructions to RFI Respondents” to prepare your letter of interest to this RFI.

Background

KDOT is administering approximately \$2,000,000 available from the Volkswagen Mitigation Trust funds allocated for investment in EV charging infrastructure. KDOT has identified approximately twelve preliminary locations for the installation of DC Fast Charging stations (50 kW or greater) to help advance the state’s effort to support publicly accessible charging stations every 50 miles along primary corridors. The twelve preliminary locations have been identified along the I-70, I-35, and I-135/US-81 corridors by the Clean Cities EV Working Group.

Eligible Applicants

Eligible applicants may include one or more of the following organization types:

- Businesses/vendors
- Utility companies
- Federal, state, local, or tribal government agencies
- Nonprofit organizations

Applicants are strongly encouraged to demonstrate collaboration with local governments including cities, towns, and county governments as well as other local partners such as other public and private stakeholders. Proposals that have strong support from local and regional stakeholders will be evaluated more favorably.

Applicants are required to collaborate with the local electric utility and include appropriate documentation from the utility, such as a letter or service notice, indicating power supply availability for the proposed project. The following link provides a map of electric utility service areas in Kansas: https://kcc.ks.gov/images/PDFs/maps/ks_electric_certified_areas.pdf.

Applicants are strongly encouraged to identify one or more potential charging station location hosts; and must present a plan for five years of ownership and maintenance of the equipment and public access. Proposals that have identified an interested charging station host will be evaluated more favorably.

Applicants are required to provide a description of the business model which includes utility rates, operational costs, cost to charge at the stations, and anticipated revenue. The proposed pricing structures and rates to charge drivers should be fair and reasonable.

Funding and Reporting Requirements

KDOT will administer approximately \$2,000,000 to awardees for the installation of DCFC charging stations at twelve preliminary locations and along the identified priority corridors.

KDOT will reimburse up to 80% of eligible costs for charging stations installation. Total average reimbursable cost per installation is expected to be approximately \$150,000. Donation of land, driveway access, or reduced energy charges to the customer are not reimbursable expenses.

In-kind match and non-cash match sources will not be eligible match sources. Only expenses incurred on eligible costs may be considered toward the match.

Eligible Costs

Only costs necessary for and directly connected to the acquisition, installation, operation, and maintenance of the EV charging equipment are eligible for reimbursement. The following items are eligible for reimbursement up to 80% upon project completion:

- DC fast charging equipment costs
- Charger installation costs
- Equipment shipping costs
- Necessary electric service upgrades and connection of the charger to electric service; including utility upgrades such as transformers and line extensions
- Other hard costs of site preparation (concrete, conduit, cable/wiring)
- Signage and lighting (directly associated with the charging infrastructure)
- Networking costs (up to five years)
- Charging equipment extended warranties and service contracts (up to five years)
- Other equipment and non-labor project costs including design and engineering and project management
- Permit costs/fees
- Warranties for equipment (up to five years)

Ineligible Costs

Costs not directly connected to the acquisition, installation, operation, and maintenance of the EV charging equipment are not eligible for reimbursement. Ineligible costs include but are not limited to the following:

- Purchase or rental of real estate
- Other capital costs (construction of buildings or parking facilities)
- General maintenance (other than that of the EV charging equipment)
- Administrative costs
- Battery storage serving the charging equipment
- Solar photovoltaic panels providing power to the charging equipment
- Cost of electricity to power the EV charging equipment
- Restriping or repaving/resurfacing of parking lots or outside of DCFC installation

Award Payment Schedule

Invoices may be submitted for a one-time reimbursement following the completion of the applicant’s committed installation(s). Invoices will be reviewed and approved by KDOT and must include photographs of the installed charging station, receipts for equipment, contractor hours, installation costs, and supplies. If applicant wishes to have any five-year operational and maintenance expenses included, prepaid invoices will need to be provided with invoice. All project work must be completed within 12 months from the date the KDOT agreement is signed.

Reporting

Awardees are required to have their charging stations registered on the following databases for a minimum of five years following the date of project completion:

- U.S. Department of Energy’s Alternative Fuels Data Center at <https://afdc.energy.gov/stations/#/station/new>
- PlugShare at <https://www.plugshare.com/>

Awardees are required to provide usage reports on a prescribed schedule that will be established in agreement with KDOT. The report will include but is not limited to, the number of charging sessions, average kilowatt-hours used per charging session, maximum instantaneous peak power, hours of equipment downtime, and charging duration. Such information will help the program better understand the demand for charging and usage trends.

All awardees must submit annual station utilization data to KDOT for a minimum of five years after project completion. The following information shall be submitted for each charger installed:

- Connect and disconnect times
- Start and end charge times
- Maximum instantaneous peak power
- Average power
- Number of charging events
- Total energy (kWh) per charging event
- Rolling 15-minute average power
- Date/time stamp
- Unique ID for charging event
- Unique ID for identifying the EVSE
- Other non-dynamic EVSE information such as GPS ID
- Percentage of station downtime

Site Locations

Proposed locations: Must be within in 5 miles of corridor exit.	
I-70	Oakley/Grainfield/Grinnell area
I-70	WaKeeney
I-70	Russell
I-70	Ellsworth/US-156 exit
I-70	Abilene to Junction City Area
I-70	Manhattan to Paxico Area
I-35	Ottawa
I-35	Emporia
I-35	Cassoday to Matfield-Green area
I-35	Belle Plain – Wellington Area
I-135	Newton/North Newton
US-81	Concordia

Equipment and Installation Requirements

Equipment

- Stations with two DCFC must be capable of providing at least 150 kW charging for a single vehicle and at least 50 kW simultaneous charging for two vehicles.
- Stations with four DCFC must be capable of providing at least 150 kW simultaneous charging for two vehicles and at least 50 kW simultaneous charging for four vehicles.
- Stations must be backward compatible to CHAdeMO v0.9 and SAE J1772 Oct2012 or other similar standard to allow model year 2010 or newer DC charging equipped vehicles to charge at lower kW.
- The DCFC and supporting equipment must comply with NEC (2020edition) Article 625 and related articles and tables.

- DCFC and supporting electrical components, enclosures, and mounting systems must be built to UL 2202 and UL2594 standards or equivalent.
- DCFC and supporting equipment shall be listed by a Nationally Recognized Testing Laboratory (NRTL).
- DCFC and supporting equipment shall comply with state and local codes and electrification requirements including, but not limited to, third party certification as appropriate (documentation to be included for each unit).
- DCFC shall have payment or access control to allow users to authenticate using a credit card (magnetic stripe and chip card) using equipment at the station. KDOT will consider additional payment methods beyond credit cards including use of RFID device, NFC, smart phone apps, or other identifying and authorizing methods. These additional payment methods shall operate on equipment, software, and networks using publicly available open standard(s), such as Open Charge Point Protocol (OCPP) v1.6. The DCFC should have back-end capabilities to collect payment or provide reporting mechanisms such that another system, through secure re-programming of back-end server location and credentials, would be able to collect payment and provide access control.
- DCFC shall be type evaluated through the National Type Evaluation Program (NTEP) and the installation and use shall comply with all requirements of the National Institute of Standards and Technology (NIST) Handbook 44 Section 3.40. Electric Vehicle Fueling Systems–Tentative Code and shall have received safety certification by a nationally recognized testing laboratory (NRTL). j. DCFC shall be indicated and recorded in megajoules (MJ) or kilowatt-hours (kWh) and decimal subdivisions thereof, with the value of the smallest unit of indicated delivery by a DCFC, and recorded delivery if the DCFC is equipped to record, shall be 0.005 MJ or 0.001 kWh.
- Physical Appearance, Function, and Design
 - DCFC and supporting equipment must utilize tamper-resistant screws and design but provide a locked or easy opening mechanism for service work.
 - DCFC enclosure must be constructed for use outdoors in accordance with UL50, Standard for Enclosures for Electrical Equipment, NEMA, Type 3R, or better to protect against blown dust or rain. Equivalent standards may be used if it is in accordance with or otherwise meeting the requirements of UL50.
 - Display screens must be protected from malfunctions due to condensation and normal local weather conditions.
 - Equipment and display screens should be sturdy enough to withstand most types of vandalism
 - DCFC and supporting equipment must be capable of operating over beyond an ambient temperature range of minus 22 to 122 degrees Fahrenheit. Applicants should provide a derat-

(continued)

ing curve for their equipment within this temperature range.

- DCFC shall include barriers to prevent damage from equipment used for snow removal.
- DCFC must incorporate a cord management system or method to minimize the potential for cable entanglement, user injury, or connector damage from lying on the ground, and comply with NEC articles 625 as it applies to cord management systems.
- Additional preferred specs include:
 - Adequate surge protection for proposed equipment.
 - Operating humidity at up to 95% at +50C non-condensing.
 - Power conversion efficiency of 90%, though higher is encouraged.
 - Total Harmonic Distortion (iTHD) of < 5% or whatever is required to be compliant with local utility policy.
 - A power factor of 90% or better.

Networking

- DCFC must connect to a network via Wi-Fi or cellular connection using multiple carriers. Applicants must clearly state how possible network security concerns will be prevented, addressed, and managed.
- Network must be PCI (Payment Card Industry) compliant to allow for credit card payment.
- Network must provide the option for remote management and access control.
- Stations shall collect usage data for required annual data reporting to KDOT (see Reporting section).
- The operator must have remote diagnostics and the ability to “remote start” the equipment.
- Warranties must include repair and replacement for vandalism and be valid for a minimum of five years.

Location

- Within 5 miles of the corridor, favorable evaluations will be given for closer installations.
- ADA compliant.

Amenities

- Station site shall have 24-hour access to the chargers and well-maintained, illuminated restrooms. The restrooms should be supplied with potable water.
- At a minimum, the sites shall supply basic amenities such as vending machines or fast food.
- Stations shall have access to Wi-Fi and/or cellular service for customers while they charge.
- Access to full-service amenities within a short walking distance is preferred, such as local restaurants, retail shopping, or tourist attractions.
- Each station site shall have adequate parking to allow for the maximum number of vehicles that can be charged simultaneously (at least two vehicles per site).
- Station sites shall have dusk-to-dawn area lighting.
- The sites must provide or have access to shelter for inclement weather.
- Applicants shall clearly describe safety precautions implemented on site for EV drivers charging their vehicles with the installed equipment.

Payment

- The charging equipment must be capable of supporting multiple point-of-sale methods including credit or debit cards without incurring any additional fees, inconvenience, or delays versus other payment or access control methods. Other payment options may include pay per use subscription methods, RFID or smart cards, and smart phone applications.
- Equipment shall allow for flexible pricing including, but not limited to, per minute or per hour, by kWh, by time of day.
- Equipment and software shall be futureproofed to allow for alternative forms of payment as payment technology evolves.

Operation and Maintenance

- 24/7 customer service availability.
- Five-year service guarantee.
- Must register with the Alternative Fuels Data Center and PlugShare.
- The applicant will be responsible for ensuring payment of all operating and maintenance costs including, but not limited to, payment of leases, rents, royalties, licenses, fees, taxes, revenue sharing, utilities, and electric power supply for the charging equipment and supporting elements, such as area lighting.
- The applicant is responsible for ensuring the maintenance of the chargers including cables, ancillary equipment, and any awnings, canopies, shelters, and information display kiosks for signage associated with the charging station. “Maintain” as used in this RFI shall mean “to provide all needed repairs or desired and approved alteration, as well as regular maintenance needed to ensure optimal performance and minimize downtime. Equipment shall be kept safe and presentable.”
- The applicant must address any issues such as, but not limited to, malfunctions and repairs. The applicant must propose a plan to ensure that the equipment is operational at least 95% of the time based on a week of 24 hours a day and seven days (no more than 5 hours cumulative downtime in a seven-day period). It is the applicant’s responsibility to ensure the 95% uptime requirement is met. For significant or complex issues leading to extended downtime (such as vandalism), applicants shall notify appropriate sources so drivers are aware, including, but not limited to, website and application hosts, as appropriate.
- Applicants shall include snow removal plan to ensure access during/after inclement weather.
- The applicant must provide customer support service that is accessible 24/7. This may include an on-site station operator or a toll-free telephone number clearly posted near the charging equipment that is available to EV drivers accessing the charging equipment.

Upgradability

- Applicants shall include future-proofing strategies such as larger or additional concrete pads, transformers, and other utility-related equipment, and

larger and/or additional conduit to avoid having additional construction and conduit costs in the future.

- Applicants are strongly encouraged to consider opportunities for current or future use of onsite storage, dispatchable load, and renewable energy.

Draft Procurement Schedule

The following is a preliminary procurement schedule. Recipients will have 12 months from award to install charging stations.

Milestone	Date
RFI responses due to KDOT	September 24, 2021
RFP is sent to Kansas Register	October 29, 2021
Pre-Proposal meeting	November 4 or 5, 2021
RFP responses due to KDOT	November 19, 2021
Project selection	December 10, 2021
Project reporting finalized	December 31, 2022

Preliminary Proposal Evaluation Criteria

All proposals will be reviewed and scored by a scoring committee. Late proposals, ineligible applicants and projects, and incomplete proposals will not be considered for scoring. A 100-point scale with the following criteria will be used in scoring:

Criterion	Possible Points
Site location: interested charging station host; meets minimum amenities requirement; proximity to highway; hours of operation	20
Business Model and Budget are complete, well-documented, realistic ¹	15
Equipment scaled by DC charging rate from 50kW to 150 or higher	10
Compliance with ADA Requirements	10
Demonstrated commitment, timeline and experience	10
Upgradability and future proofing	10
Innovative energy solutions (e.g. battery storage, renewable energy source such as dedicated solar-voltaic system)	10
Provision of free Wi-Fi for customers	5
Recipient matching funds higher than required	5
Partnerships with community and/or businesses identified; including charging station host(s) and participating utility company(s) ²	5
¹ Failure to include this required documentation may result in disqualification from the eventual RFP solicitation event.	
² Failure to provide appropriate documentation from the utility, such as a letter or service notice, indicating power supply availability for the proposed project may result in disqualification from the eventual RFP solicitation event.	

Instructions to RFI respondents:

KDOT appreciates your review of this RFI to provide input and information for the successful execution of the funding available under the Volkswagen Mitigation Trust. Your responses are acceptable in a letter format. We appreciate brevity and completeness. Please feel free to comment on RFI information and ask for clarity. We would appreciate your letter of interest following this outline of information needs and questions:

1. Lead applicant name
Company name/vendor/business entity/other
Address
Phone and email contact information

2. Additional teaming partners if known at this time
3. Costs of a proposed project will include those directly connected to the acquisition, installation, operation, and maintenance of the EV charging equipment. In your opinion what is the maximum award amount that is meaningful per location?
4. To provide as many charging locations as possible all awards will require monetary match from the awardee. What percentage of match should be required?
5. Please select the location(s) you would target and add any additional locations along the targeted corridors. Please be clear on your interest in providing a single location or multiple locations.

Proposed locations: Must be within in 5 miles of corridor exit		Selected location(s):
I-70	Oakley/Grainfield/Grinnell area	
I-70	WaKeeney	
I-70	Russell	
I-70	Ellsworth/US-156 exit	
I-70	Abilene to Junction City Area	
I-70	Manhattan to Paxico Area	
I-35	Ottawa	
I-35	Emporia	
I-35	Cassoday to Matfield-Green area	
I-35	Belle Plain – Wellington Area	
I-135	Newton/North Newton	
US-81	Concordia	

6. If awarded, what is the proposed timeline for the acquisition and installation of the EV charging equipment, based on the expectation of awards being announced by Jan. 1, 2022?
7. What would prevent you from responding to the RFP?
8. Please indicate your interest in responding to the upcoming RFP.

The letter of interest is required to be considered for final award. A PDF (2MB maximum size) of the RFI response must be emailed to kdot.designcontracts@ks.gov. RFI responses are limited to four pages, the subject line of the reply email and the PDF file name must read "EVCharging_Lead Applicant Name." The letter of interest is required to be considered for final award and must be received no later than September 24, 2021, at 5:00 p.m. (CST).

Questions about this RFI shall be sent via email to kdot.designcontracts@ks.gov. Questions are due by September 16 and responses will be posted by September 20, 2021, at a link entitled "EV DCFC Station Installation Program" available under "Additional Links" at <http://www.ksdot.org/descons.asp>.

Michael J. Moriarty
Chief of Transportation Planning

Doc. No. 049431

State of Kansas

Department for Aging and Disability Services

Request for Comments

The following Interim Care Facility for Individuals with Intellectual Disabilities (ICF/IID) cost center limits are being set forth for public comment. Comments should be
(continued)

sent to Trescia Power, Program Finance Oversight Manager, 503 Kansas Ave., Topeka, KS 66603. The comment period will expire 30 days from the publication of this notice.

K.A.R. 30-10-214 provides for the annual review and adjustment of Class II ICF/IID cost center limits, approved by the secretary of the Kansas Department for Aging and Disability Services (KDADS) or designee, based on current cost information supplied by the enrolled, licensed providers of ICF/IID services, and formula set forth in the Kansas State Medicaid Plan (Attachment 4.19-D, Part II, Subpart O, page 1). The formula is as follows: total allowable costs, including an inflation factor, are compared to the amount to be reimbursed under the current limits.

The formula threshold requires that 60 percent of all ICF/IIDs are reimbursed 90 percent of their allowable costs. If less than 60 percent of the facilities are reimbursed at 90 percent of their allowable costs, then the cost center limits are adjusted until the threshold is met. The inflation factor is based on the IHS Global Insight, National Skilled Nursing Facility Market Basket Without Capital Index (IHS Index).

To determine where to make the adjustments, two major cost centers are analyzed according to the following prescription:

- Administrative costs are based on facility size
- Habilitation costs are based on facility size and level of care (LOC)

The cost analysis for SFY2022 demonstrates 80 percent of the Class II ICF/IIDs are being reimbursed at 90 percent or more of their allowable costs. Per the state plan the analysis indicates that adjustments are not required.

Recommendations

Based on cost report analysis and available funding, cost center limits for Class II ICF/IIDs are as follows:

Facility

Size	Level I	Level II	Level III	Level IV	Level V
A. +16 beds	\$162.86	\$154.71	\$146.98	\$139.64	\$ 132.65
B. 9-16 beds	\$204.61	\$194.40	\$184.68	\$175.46	\$ 166.67
C. 4-8 beds	\$239.39	\$227.42	\$216.04	\$205.24	\$ 194.98

Administrative per diem limits are based on the size of the facility, using the same classes as referred to above.

Administrative Per Diem Limits

- A. \$12.92
- B. \$30.68
- C. \$36.18

Fiscal Impact

Due to changes to inflation factors, the estimated annual cost increase is \$25,666.

Laura Howard
Secretary

Doc. No. 049419

State of Kansas

Kansas Development Finance Authority

Notice of Hearing

A public hearing will be conducted at 9:00 a.m. Tuesday, September 28, 2021, in the offices of the Kansas Development Finance Authority (KDFA), 534 S. Kansas

Ave., Suite 800, Topeka, Kansas, on the proposal for the KDFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the KDFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 001083 Maximum Principal Amount: \$290,000. Owner/Operator: Jack E. and Deborah L. Geiger; Description: Acquisition of 69.3 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Jack E. and Deborah L. Geiger (the "Beginning Farmer") and is located at the West Half of the Northwest Quarter of Section 16, Township 3, Range 18, Brown County, Kansas, approximately ¾ south of Robinson, Kansas on Raccoon Road.

The bond, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

As part of ongoing efforts to limit the spread of novel coronavirus in Kansas, interested individuals may participate in the public hearing via conference call. Please call toll free number 866-620-7326 and use conference identification number 159 722 1260 followed by # to join the conference.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all written comments previously filed with the KDFA at its offices at 534 S. Kansas Ave., Suite 800, Topeka, 66603, will be considered. Additional information regarding the project may be obtained by contacting the KDFA.

Rebecca Floyd
President

Doc. No. 049430

State of Kansas

**Department of Agriculture
Division of Water Resources**

**Notice of Hearing on Proposed
Administrative Regulations**

The Kansas Department of Agriculture will conduct a public hearing at 2:00 p.m. Monday, November 22, 2021, to consider the adoption of proposed regulations. Due to the public health concerns posed by the COVID-19 pandemic, the hearing proceedings will be conducted virtually via video conferencing system only. Anyone desiring

to participate in the public hearing via video conference must pre-register at https://kansasag.zoom.us/join/register/tZMrcuuspzgoHdTsVy_mjsFzR4wz9BMkEgee.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. All interested parties may submit written comments prior to the hearing to the Secretary of Agriculture, 1320 Research Park Dr., Manhattan, KS 66502, or by email to ronda.hutton@ks.gov. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes. These regulations are proposed for adoption on a permanent basis.

K.S.A. 82a-1041 authorizes groundwater management districts to develop local enhanced management areas (LEMA) that address any of the criteria in K.S.A. 82a-1036(a)-(d), which include groundwater declines, waste of water, and the unreasonable deterioration of water quality. K.S.A. 82a-1041(k) directs the Chief Engineer to adopt rules and regulations to effectuate and administer LEMAs. There are currently three LEMAs in place, one of which was renewed for a second five-year term beginning in 2018. All active LEMAs include mandatory reductions in water use to achieve a total savings in water use. While K.S.A. 82a-1041 already requires substantial due process and specific procedural protections for water right owners, including at least two public hearings, these regulations reflect the lessons learned from previous hearing processes and from a district court challenge which upheld a LEMA order. They also generally provide guidance as to the specific information that is most helpful for a hearing process, the specific hearing procedures to be followed, and procedures for later modifying existing LEMAs. A summary of the proposed regulations and their economic impact is as follows:

K.A.R. 5-19-1 – Provides definitions for relevant terms used throughout the regulations.

K.A.R. 5-19-2 – Sets forth the requirements for a LEMA plan and provides that the Kansas Department of Agriculture's Division of Water Resources may assist in developing a plan or may informally review a plan before it is submitted to the Chief Engineer for formal review.

K.A.R. 5-19-3 – Sets forth the requirements for proceedings conducted for the designation of a LEMA. This regulation provides that the Chief Engineer may preside over a public hearing for such purpose or designate a presiding officer to do so. This regulation sets out the authority and responsibilities of the hearing officer as well as the rights and obligations of the parties to a LEMA proceeding.

K.A.R. 5-19-4 – Provides that the board of directors or staff of a groundwater management district ("GMD") shall give due consideration to past voluntary reductions in water use that resulted in water conservation when determining water quantity allocations or eligible acres under a LEMA plan, if the plan's allocations or eligible acres are based on past water use. The regulation further

provides that, if a GMD determines that past voluntary reduction in water use has been accomplished through management or conservation practices, an allocation or determination of eligible acres under the LEMA plan, or any average used to calculate the same, may be adjusted based on the amount of water conserved for each year that the conservation measure was in place. Finally, this regulation provides that a GMD, in consultation with the Chief Engineer, develop any methods or criteria for determining reductions in water use that resulted in voluntary conservation as may be suitable to local conditions.

K.A.R. 5-19-5 – Sets forth the requirements for implementing changes to a LEMA plan after a LEMA has been designated, including changes resulting from an informal review of the plan by the GMD board of directors or a formal review by the Chief Engineer.

Economic Impact Statement for K.A.R. 5-19-1 through K.A.R. 5-19-5:

These regulations are not mandated by the federal government. Contiguous states do not have a similar law in place.

The proposed rules and regulations will not enhance or restrict business activities any further than the development of a LEMA already impacts such activities. The regulations provide procedural steps prior to the adoption or amendment of a LEMA and do not further impact business activities. If there is any impact, it is only to expand the due process and information made available to individual water right owners prior to establishment of a LEMA.

The regulations themselves will not have a direct economic impact on any sector, but they will provide predictability and ensure that adequate public outreach and due process is provided to water right owners prior to establishment or modification of a LEMA. While data is still somewhat limited, one study produced by Kansas State University shows that enactment of a LEMA in areas facing groundwater declines resulted in an increase of profits compared to areas just outside the LEMA area. We expect future studies and additional data to continue to be collected. (Monitoring the Impacts of the Sheridan 6 Local Enhanced Management Area, Dr. Bill Golden at https://www.agmanager.info/sites/default/files/pdf/SheridanCounty6_LEMA_2013-2017.pdf.)

Farmers, ranchers, feedlot owners, and any business that owns a water right within a groundwater management district would be directly affected by the proposed rules and regulations.

Additional costs are not anticipated because these regulations largely clarify and codify work that is already being performed. The costs are already carried by the GMDs and Division of Water Resources. These costs are mostly in the form of the additional staff time that is necessary to ensure LEMA plans were developed with adequate public outreach and that the goals, corrective controls, and benefits of the plan are clearly documented at a public hearing that provides adequate due process protections to water right owners.

Per K.S.A. 82a-1041, the Division of Water Resources will cover the costs of all public hearings necessary for

(continued)

the designation of a LEMA, and any proposed LEMA plan must meet specific requirements prior to hearing proceedings being initiated so that resources are not wasted on a plan that is not sufficient.

There will be no annual implementation and compliance costs incurred by or passed along to businesses, local governments, or members of the public.

K.S.A. 82a-1041 was adopted in 2012 and there have been three LEMAs successfully adopted since then, with one LEMA being renewed for a second term with modifications to allow for a simplified process based mostly on existing data. One LEMA proposal submitted to the Chief Engineer was rejected after initial review because of various shortcomings. These regulations do not require any additional costs for either the state or groundwater management districts and mostly place into regulation current standard practice regarding hearings and LEMA plan requirements. Each local district may approach development of a LEMA differently and is free to devote whatever resources they believe necessary during that process. Though such efforts will vary widely, this codification of standard practice is not expected to result in any additional cost.

Although there will be no direct impact on cities, counties or school districts, the Kansas Association of Counties, Kansas Association of School Boards, and League of Kansas Municipalities were each provided a copy of the regulations and asked to assess the economic impact of the proposed regulations on those entities. All of these entities either did not respond or stated that they would incur no impact.

In the summer and fall of 2019, an initial copy of these regulations was shared with various stakeholders, including the Kansas Farm Bureau and the Kansas Livestock Association. Division of Water Resources staff also attended, in-person, a board meeting of each of the five groundwater management districts. Over the last 18 months, multiple in-person meetings and conference calls were conducted with these same stakeholders. In addition, a meeting regarding these regulations was held with the Kansas Water Congress, the Kansas Municipal Utilities, and various individual water users were consulted.

If it were determined that LEMAs could not be created without these rules and regulations, then excessive declines in groundwater levels will likely continue to exhaustion in some areas, thereby substantially decreasing the value of the property and the economic impact on those respective communities, including limited ability to attract new business that requires substantial water amounts to operate.

Any individual with a disability may request accommodations to participate in the public hearing and may request the proposed regulations and impact statements in an accessible format. Requests for accommodations should be made at least five working days in advance of the hearing by contacting Ronda Hutton at (785) 564-6715 or fax (785) 564-6777.

Copies of the regulations and their economic impact statement may be obtained by contacting the Department of Agriculture, Ronda M. Hutton, 1320 Research Park Dr., Manhattan, KS 66502 or 785-564-6715 or by accessing the

department’s website at <https://www.agriculture.ks.gov>. Comments may also be made through our website at <https://www.agriculture.ks.gov/document-services/public-comment>.

Doc. No. 049437

State of Kansas

Kansas Lottery

Temporary Administrative Regulations

Article 4.—INSTANT GAMES AND DRAWINGS

111-4-3678. “Fill’er Up!” instant ticket lottery game number 318. (a) The Kansas lottery may conduct an instant winner lottery game entitled “Fill’er Up!” The rules for this game are contained in K.A.R. 111-3-1 *et seq.* and 111-4-3678.

(b) The “play and prize symbols” and “captions” for this game are as follows:

Play Symbols	Captions
1	ONE
2	TWO
3	THREE
4	FOUR
5	FIVE
6	SIX
7	SEVEN
8	EIGHT
9	NINE
10	TEN
11	ELEVN
12	TWELV
13	THRTN
14	FORTN
15	FIFTN
16	SIXTN
17	SEVTN
18	EGHTN
19	NINTN
20	TWNTY
Symbol of the word GAS (outlined)	WIN

Prize Symbols	Captions
FREE	\$1TICKET
\$1 ^{.00}	ONE\$
\$2 ^{.00}	TWO\$
\$5 ^{.00}	FIVE\$
\$10 ^{.00}	TEN\$
\$20 ^{.00}	TWENTY
\$40 ^{.00}	FORTY
\$100	HUNDRED
\$200	TWO-HUN
\$1,500	OTHFIVHUN

(c) For this game, a play/prize symbol shall appear in 11 play spots within the play area or areas.

(d) The ticket numbers in each book of tickets in this game shall start with 000 and end with 299.

(e) The price of instant tickets sold by a retailer for this game shall be \$1.00 each.

(f) "Fill'er Up!" is a key number match game with an instant reveal. The player will scratch the play area to reveal one "WINNING NUMBER" and five "YOUR NUMBERS" with a prize amount below each of the "YOUR NUMBERS." If the player matches the "WINNING NUMBER" to any of the "YOUR NUMBERS," the player wins the prize amount shown below that number. If the player reveals a symbol of the word GAS, the player wins the prize amount shown below the symbol.

(g) Each ticket in this game may win up to 5 times.

(h) Approximately 1,800,000 tickets shall be ordered initially for this instant game. Additional ticket orders shall have the same prize structure, the same number of prizes per prize pool of 120,000 tickets, and the same odds as were contained in the initial ticket order.

(i) The expected number and value of instant prizes in this game shall be as follows:

	Prize	Winners Per 1,800,000	Prize Cost
\$1 FREE TICKET	Ticket	180,000	\$0
\$1	\$1	132,000	\$132,000
\$2	\$2	6,000	\$12,000

(j) The odds of winning a prize in this game are approximately one in 4.29. (Authorized by K.S.A. 74-8710; implementing K.S.A. 74-8710 and 74-8720; effective, T-111-8-23-21, Aug. 11, 2021.)

111-4-3679. "Bingo Night" instant ticket lottery game number 329. (a) The Kansas Lottery may conduct an instant winner lottery game entitled "Bingo Night." The rules for this game are contained in K.A.R. 111-3-1 *et seq.* and 111-4-3679.

(b) The "BINGO CARDS play symbols" for the 25 play spots within each of the four "BINGO CARD" play areas for this game are as follows:

01	02	03	04	05	06	07	08	09	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	FREE	Symbol of three stars			

In the "CALLER'S CARD" play area, a play symbol comprised of a letter and number combination appears in each of the 24 play spots. The "CALLER'S CARD play symbols" for this instant game are the following:

B01	I16	N31	G46	O61
B02	I17	N32	G47	O62
B03	I18	N33	G48	O63
B04	I19	N34	G49	O64
B05	I20	N35	G50	O65
B06	I21	N36	G51	O66
B07	I22	N37	G52	O67
B08	I23	N38	G53	O68
B09	I24	N39	G54	O69
B10	I25	N40	G55	O70
B11	I26	N41	G56	O71
B12	I27	N42	G57	O72
B13	I28	N43	G58	O73
B14	I29	N44	G59	O74
B15	I30	N45	G60	O75

(c) For this game, a play/prize symbol shall appear in 124 play spots within the play areas.

(d) The ticket numbers in each book of tickets in this game shall start with 000 and end with 149.

(e) The price of instant tickets sold by a retailer for this game shall be \$2.00 each.

(f) "Bingo Night" is a bingo style game. The first part consists of the "CALLER'S CARD." The second part consists of four "GAME CARDS." Each GAME CARD will be covered in a translucent material and contain 23 numbers, a "FREE" space in the center and a random three stars symbol to be utilized as an additional free space, for a total of 25 squares. In the column headings of each "GAME CARD" will appear the letters "B", "I", "N", "G" or "O." Each "GAME CARD" has a corresponding prize legend shown to the side of each "GAME CARD."

A player will remove the scratch-off material from the areas on the ticket indicated by the words "CALLER'S CARD" to reveal a total of 24 letter/number combinations. A player will attempt to match the "CALLER'S CARD play symbols" to the column heading (letter) and number combinations on the four "GAME CARDS" and will remove the translucent material over any matched

(continued)

“GAME CARD play symbol” on the “GAME CARD.” If using any combination of matched play symbols and/or the “FREE” space and/or the three stars symbol a player matches all the play symbols in a “GAME CARD” to complete a diagonal, vertical, or horizontal straight line covering the five play spots, four corners of the grid, or an “X” pattern covering the five play spots in each line forming the “X” pattern, the player wins the prize according to the prize legend shown to the side of the respective “GAME CARD.”

(g) Each ticket in this game may win up to four times. Only the highest prize won on each “GAME CARD” will be awarded.

(h) Approximately 2,400,000 tickets shall be ordered initially for this instant game. Additional ticket orders shall have the same prize structure, the same number of prizes per prize pool of 240,000 tickets, and the same odds as were contained in the initial ticket order.

(i) The expected number and value of instant prizes in this game shall be as follows:

	Prize	Winners Per 2,400,000	Prize Cost
LINE Card 1	TICKET	448,000	\$0
LINE Card 2	\$4	128,000	\$512,000

NUMBERS” and 25 “YOUR NUMBERS” with a prize amount shown below each “YOUR NUMBER.” If the player matches any of the “YOUR NUMBERS” to any of the “WINNING NUMBERS,” the player wins the amount shown below the matching “YOUR NUMBER.” If the player reveals a symbol of a moneyroll, the player wins the prize amount shown below that symbol. If the player reveals a symbol of two moneybags, the player wins double the prize amount shown below that symbol. If the player reveals a symbol of a fist full of money, the player wins all 25 prize amounts shown on the front of the ticket. On the back of the ticket, the player will scratch each of the separate bonus play areas to reveal one “WINNING NUMBER” in each bonus play area and five “YOUR NUMBERS” in each bonus play area with a prize amount shown below each “YOUR NUMBER.” If the player matches any “YOUR NUMBER” to any of the “WINNER NUMBERS” in the same bonus game, the player wins the amount shown below the matching “YOUR NUMBER.”

(g) Each ticket in this game may win up to 40 times.

(h) Approximately 300,000 tickets shall be ordered initially for this instant game. Additional ticket orders shall have the same prize structure, the same number of prizes per prize pool of 240,000 tickets, and the same odds as were contained in the initial ticket order.

(i) The expected number and value of instant prizes in this game shall be as follows:

(j) The odds of winning a prize in this game are approximately one in 3.60. (Authorized by K.S.A. 74-8710; implementing K.S.A. 74-8710 and 74-8720; effective, T-111-8-23-21, Aug. 11, 2021.)

Article 19. – SPECIFIC PLAYER LOYALTY CLUB RULES

111-19-114. Rivalry Getaway drawing. (a) The Kansas lottery may conduct a drawing entitled “Rivalry Getaway” in which two Kansas lottery players will win tickets and a parking pass for the Kansas State University versus Kansas University football game at David Booth Kansas Memorial Stadium in Lawrence, Kansas on November 6, 2021. The Kansas lottery will accept entries into the drawing beginning at 12:01 a.m. on September 20, 2021. Entry deadline for the drawing will be 11:59 p.m. on October 10, 2021. The drawing will be conducted sometime after entry into the drawing has closed but before noon on October 14, 2021, at which time the winners will be announced.

(b) Only registered Kansas Lottery PlayOn (“PlayOn”) members may enter the drawing. PlayOn members must enter themselves into the drawing according to the terms and conditions of PlayOn. Entries shall not be accepted

which are submitted by any method other than through PlayOn.

(c) A total of 249 player loyalty club points are required for a PlayOn member to enter once in the drawing. A player may enter the drawing as many times as his or her points allow, but may win only one prize package.

(d) The procedures set forth in K.A.R. 111-18-5 for selecting winners and alternate winners shall be followed. The Kansas lottery shall award the winners selected Touchdown Club tickets for two people and a parking pass to the November 6, 2021 Kansas State University versus Kansas University football game. Each winner will also receive: pre-game hospitality; a one-night stay at the hotel designated by the Kansas University Athletics Department; choice of a Coach Lance Leipold autographed Kansas University football or a Coach Chris Klieman autographed Kansas State football; \$400 cash; and state and federal mandatory income withholding taxes paid by the Kansas lottery. The prize package is valued at approximately \$1,493.

(e) The procedures set forth in K.A.R. 111-18-5 for contacting the winner and the claiming of prizes shall be followed, except as follows: in this promotion the 10-day deadline for the winner to return their claim form shall be seven days and commence with the date of the announcement of the winner. The Kansas lottery is not responsible for electronic malfunction or player error.

(f) In the event any prize awarded for this drawing is postponed, changed, or canceled in whole or in part, no cash prize substitutions shall be provided.

(g) The Kansas lottery retains the right to substitute an alternate prize of approximate equal value.

(h) By entering the drawings, entrant agrees to PlayOn terms and conditions.

(i) Rules applicable to this online event drawing are contained in K.A.R. 111-19-114 and K.A.R. 111-18-1 *et seq.* (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-8-23-21, Aug. 11, 2021.)

Article 501.—SOUTH CENTRAL GAMING ZONE

111-501-16. Definitions. The following words and terms, when used in the game of Ultimate Texas Hold'em Poker, shall have the following meanings unless the context clearly indicates otherwise:

(a) "Ante" or "ante wager" means an initial wager, separate from but equal in amount to the player's blind wager, required to be made prior to any cards being dealt in order to participate in the round of play.

(b) "Blind" or "blind wager" means an initial wager, separate from but equal in amount to the player's ante, required to be made prior to any cards being dealt in order to participate in the round of play.

(c) "Burn" means to remove the top or next card from the deck and place it face down in the discard rack without revealing it to anyone.

(d) "Check" means that the player waives the right to place a play wager but remains in the round of play.

(e) "Community card" means any of the five cards dealt face up in the center of the table, all of which may be used by each player and the dealer together with his

or her own two cards to form the best possible five-card poker hand.

(f) "Envy bonus" means the bonus for which a player qualifies if the player has bet a progressive wager, which bonus is won when any other player at the table receives a hand consisting of a straight flush or higher ranking hand using the other player's two cards and the flop.

(g) "Flop" means the first three community cards dealt face up in the area designated for the placement of the community cards.

(h) "Fold" means the withdrawal of a player from a round of play by discarding his or her two cards and not making a play wager.

(i) "Hand" or "poker hand" means the highest ranking five-card hand that can be formed from the five community cards and the two cards dealt to the dealer or a player.

(j) "Play wager" means a wager made after two cards have been dealt to each player and the dealer, which wager can be made before the flop is dealt, after the flop is dealt but before the final two community cards are dealt, or after the final two community cards are dealt but before the dealer reveals his or her two cards.

(k) "Progressive pool" means the set percentage of all progressive wagers made in the game of Ultimate Texas Hold 'Em and any other linked progressive game that accumulates until paid to one or more winners of a progressive wager.

(l) "Progressive wager" means an optional wager that a player may make prior to any cards being dealt that the player's two cards and the flop will constitute a three of a kind, straight, flush, full house, four of a kind, straight flush, or a royal flush, with a winning progressive wager being paid in accordance with a posted pay table regardless of the outcome of the player's hand otherwise.

(m) "Push" means a tie or draw, and occurs if the player's five-card hand and the dealer's five-card hand are of equal rank. In a push, the dealer shall not take or pay the player's ante, blind, or play wagers.

(n) "Rank" or "ranking" means the relative position of a card or group of cards as set forth in K.A.R. 111-501-17, "Ultimate Texas Hold'em hand rankings."

(o) "Round of play" or "round" means one complete cycle of play during which all players playing at the table have been dealt a hand, have folded or wagered upon it, and have had their wagers paid or collected.

(p) "Stub" means the remaining portion of the deck after all cards in the round of play have been dealt.

(q) "Suit" means one of the four categories of cards: club, diamond, heart, or spade, with no suit being higher in rank than another.

(r) "Trips wager" means an optional wager that a player may make prior to any cards being dealt that the player's best five-card hand will be a three-of-a-kind or better, with a winning trips wager being paid in accordance with a posted pay table regardless of the outcome of the player's hand against the dealer's hand. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-12-22-11, Oct. 12, 2011; amended, T-111-8-23-21, Aug. 11, 2021.)

111-501-18. Wagers. (a) All wagers at Ultimate Texas Hold'em shall be made by placing gaming chips or, if
(continued)

applicable, a match play coupon on the appropriate betting areas of the table layout. A verbal wager accompanied by cash shall not be accepted.

(b) All ante, blind, and trips wagers shall be placed prior to the dealer dealing the hand. Except for a "play wager" as provided in K.A.R. 111-501-19, no wager shall be made, increased, or withdrawn after the dealer begins to deal the hand.

(c) Upon placing an ante wager and a blind wager, a player may also place a trips wager by placing a wager on the designated betting area of the layout. The outcome of the trips wager shall have no bearing on any other wager made by the player at the game of Ultimate Texas Hold'em.

(d) Any player who places an ante wager may also make a progressive wager by placing gaming chips on the progressive wager sensor in front of their betting position prior to the dealer dealing the first card.

(e) Play wagers shall be made in accordance with the provisions set forth in these rules.

(f) Only players who are seated at the Ultimate Texas Hold'em poker table may place a wager at the game. Once a player has placed a wager and received cards, that player must remain seated until the completion of the round of play.

(g) A player shall not be permitted to wager on more than one player position at an Ultimate Texas Hold'em table. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-12-22-11, Oct. 12, 2011; amended, T-111-8-23-21, Aug. 11, 2021.)

111-501-19. Play. (a) For the start of play, the dealer shall remove 5 cards from the automatic shuffler and spread those cards in the community area, then starting with the player farthest to his or her left and continuing around the table in a clockwise manner, deal the cards as follows:

(1) Two cards at a time face down to each player who has placed wagers.

(2) Two cards face down to the area designated for the dealer's hand.

(b) After the dealing procedures specified above have been completed, each player shall examine his or her cards and replace the cards face down on the layout. The dealer shall then, starting with the player farthest to his or her left and proceeding in a clockwise manner around the table, ask each player if the player wishes to place a play wager prior to the dealing of the first three community cards. The player may either check or place a play wager in an amount equal to three or four times the amount of the player's ante wager.

(c) If a player places a play wager, the wager shall be placed in the designated play betting area.

(d) If a player checks, the player shall remain in the game and defer his or her decision to place a play wager to the next betting opportunity.

(e) Once all players have either placed a play wager or checked, the dealer shall turn the first three cards in the community area face up.

(f) After the flop has been turned over, the dealer shall, starting with the player farthest to his or her left and proceeding in a clockwise manner around the table, ask each player who has not placed a play wager if he or she wishes

to place a play wager prior to the dealing of the final two community cards. The player may either check or place a play wager in an amount equal to two times the amount of the player's ante wager.

(g) If a player places a play wager, the wager shall be placed in the designated play betting area.

(h) If a player checks, the player shall remain in the game and defer his or her decision to place a play wager to the next betting opportunity.

(i) Once all players have either placed a play wager or checked, the dealer shall then turn the next two cards in the community area face up.

(j) After the final two community cards have been turned face up, the dealer shall, starting with the player farthest to his or her left and proceeding in a clockwise manner around the table, ask each player who has not yet placed a play wager whether he or she wishes to fold his or her hand or place a play wager equal in amount to his or her ante wager.

(k) If a player places a play wager, the wager shall be placed in the designated play betting area.

(l) If a player folds, the ante and blind wagers of the player shall be collected by the dealer and placed in the table inventory container.

(m) If the player has also placed a trips wager, the dealer shall place the cards of the player face down underneath the player's trips wager pending its resolution at the conclusion of the round of play.

(n) If the player has not placed a trips wager, the dealer shall immediately spread the cards of the folded hand face down and place them back in the shuffle machine's discard area.

(o) After each player has either folded or placed a play wager, the dealer shall then turn his or her two cards face up, position his or her cards near the three community cards that can be used to form the best possible five-card hand and announce the dealer's hand to the players.

(p) If the dealer's best possible five-card hand is lower than a pair, the dealer shall, starting with the player farthest to the dealer's right who has placed a play wager and proceeding in a counterclockwise manner around the table, return each player's ante wager and resolve all other wagers in accordance with subsection (q) below.

(q) If the dealer's best possible five-card hand is a pair or above, the dealer shall, starting with the player farthest to the dealer's right who has placed a play wager and proceeding in a counterclockwise manner around the table, turn the two cards of each player who has placed a play wager face up and announce the best possible five-card poker hand that can be formed using the player's two cards and the five community cards. The wagers of each player shall be resolved one player at a time regardless of outcome. After all wagers placed by a player are settled, the player's cards shall then be immediately collected by the dealer and placed back in the shuffle machine's discard area.

(r) If the player's five-card hand is ranked lower than the dealer's five-card hand, the player shall lose and the dealer shall immediately collect any ante, blind and play wagers made by the player.

(s) If the player's five-card hand is ranked higher than the dealer's five-card hand, the player shall win and the

dealer shall pay any ante, blind and play wagers made by the player provided that the blind wager shall not be paid unless the player's winning hand has a rank of straight or higher.

(t) If the player's five-card hand and the dealer's five-card hand are of equal rank, the player's hand shall be a push. In such case, the dealer shall not collect or pay the player's ante, blind, or play wagers.

(u) After settling a player's ante, blind, and play wagers, the dealer shall settle any trips wager made by the player by determining whether the player's five-card hand qualifies for a payout in accordance with K.A.R. 111-501-20. A winning trips wager shall be paid without regard to the outcome of any other wager made by the player.

(v) A player making the progressive wager also qualifies to win an envy bonus. If any player at the table is dealt a hand that wins a progressive bonus, all other players who made a progressive wager win the envy bonus. The player dealt the hand that wins the progressive bonus shall not be paid an envy bonus but shall only be paid the applicable progressive prize.

(w) The dealer shall pay all envy bonuses at the end of the round. If more than one hand triggers an envy bonus, then multiple envy bonuses may be paid.

(x) After settling a player's ante wager, street wagers, and three card bonus wager, the dealer shall settle any progressive wagers. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-12-22-11, Oct. 12, 2011; amended, T-111-8-23-21, Aug. 11, 2021.)

111-501-20. Payout odds. (a) Each winning ante and play wager shall be paid at odds of 1 to 1.

(b) If a player's five-card hand ranks higher than the dealer's five-card hand, the player shall be paid on the player's blind wager in accordance with the following odds:

Player's Five-Card Hand	Payout Odds
Royal flush	500 to 1*
Straight flush	50 to 1*
Four-of-a-kind	10 to 1*
Full house	3 to 1*
Flush	3 to 2*
Straight	1 to 1*
Less than a straight	Push

*This does not include the return of the player's original bet.

(c) Players shall be paid on each winning trips wager at no less than the odds set forth in the alternative pay table set forth below that is implemented by the lottery gaming facility manager as approved by the executive director of the Kansas lottery:

Hand	Paytable A	Paytable B	Paytable C	Paytable D
Royal flush	50 to 1	50 to 1	50 to 1	50 to 1
Straight flush	40 to 1	40 to 1	40 to 1	40 to 1
Four-of-a-kind	30 to 1	30 to 1	30 to 1	20 to 1
Full house	9 to 1	8 to 1	8 to 1	7 to 1
Flush	7 to 1	6 to 1	7 to 1	6 to 1
Straight	4 to 1	5 to 1	4 to 1	5 to 1

Three-of-a-kind 3 to 1 3 to 1 3 to 1 3 to 1

*The payouts listed above do not include the return of the player's original bet. The trips bets are paid as each hand decision is made.

(d) Players shall be paid on each winning progressive wager in accordance with the following pay tables based upon either a \$1 or \$5 progressive wager. The prizes for a royal flush or straight flush are for a percentage of the funds in the progressive pool at the time of the win:

Hand	\$1 Wager Pay table		\$5 Wager Pay table	
	Progressive	Envy	Progressive	Envy
Royal Flush	100%	\$1000	100%	\$5,000
Straight Flush	10%	\$300	10%	\$1,500
Four-of-a-kind	300 for 1		300 for 1	
Full House	50 for 1		50 for 1	
Flush	40 for 1		40 for 1	
Straight	30 for 1		30 for 1	
Three of a kind	9 for 1		9 for 1	

Prizes do not include the return of the player's original wager and only the two prizes denoted as percentages shall be paid out of the progressive pool.

(e) The minimum progressive wager shall be in the amount of either \$1.00 or \$5.00 as posted at each table that offers the progressive wager.

(f) The progressive pool shall be funded as follows:

(1) The casino manager shall initially contribute \$10,000 if the minimum progressive wager is \$1.00 or shall initially contribute \$50,000 if the minimum progressive wager is \$5.00 to establish the beginning amount for the progressive pool. The progressive pool will be replenished in those same amounts each time the 100% progressive prize is awarded; and

(2) 21% of each progressive wager shall be added to the progressive pool.

(g) If during the same round of play one or more players are entitled to 100% of the progressive pool and one or more players are also entitled to 10% of the progressive pool, the winning player farthest to the right of the dealer shall first receive either 100% or 10% of the progressive pool, as applicable. After paying the player farthest to the right of the dealer and deducting that amount from the progressive pool, working from that player to the dealer's left each player winning a share of the progressive pool shall be paid either 10% of the amount then remaining in the progressive pool or 100% of the remaining amount, as applicable.

(h) The following rules regarding irregularities shall apply:

(1) If any card dealt to the dealer in Ultimate Texas Hold'em is exposed prior to each player having either folded or placed a play wager, all hands shall be void. Notwithstanding the foregoing, if a player has placed a trips wager, the community cards shall be dealt and each trips wager shall be settled.

(2) A card that is found face up in the shoe or the deck while the cards are being dealt shall not be used in the game and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void and the cards shall be reshuffled. Notwithstanding the foregoing, if the card(s) are found face up after each play-

(continued)

er and the dealer has received his or her initial two cards, the community cards shall be dealt and any trips wager shall be settled in accordance with the payout odds set forth above.

(3) A card drawn in error without its face being exposed shall be used as though it was the next card from the shoe or the deck.

(4) If a player is dealt an incorrect number of cards, that player's hand shall be void. If the dealer is dealt an incorrect number of cards, all players' hands shall be void unless the dealer can deal himself or herself the correct number of cards in sequence, provided that such cards have not already been turned face up and the deck contains the correct number of cards.

(5) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle,

or fails to complete a shuffle cycle, the cards shall be reshuffled.

(6) If an automated dealing shoe is being used and the device jams, stops dealing cards, or fails to deal cards during a round of play, the round of play shall be void and the cards shall be removed from the device and reshuffled with any cards already dealt.

(7) Any automated card shuffling device or automated dealing shoe shall be removed from a gaming table before any other method of shuffling or dealing may be utilized at that table. (Authorized by K.S.A. 74-8710 and 74-8748; implementing K.S.A. 74-8710; effective, T-111-12-22-11, Oct. 12, 2011; amended, T-111-8-23-21, Aug. 11, 2021.)
