### Minimum Requirements

#### MSA and Roadway Worker Protection

- Contractors must complete, and have on file, a current Master Services Agreement with the K&O Railroad prior to any work commencing.
- Prior to beginning any work, contractors shall comply with all parts of 49 CFR Part 214 and 219 regarding FRA Roadway Worker Safety at all times. Men and equipment shall remain clear of the track unless they have gained Roadway Worker Protection from a qualified person.
- Contractor, contractor employees, agents and/or subcontractors must be enrolled and comply with the FRA 219 approved drug testing program.
- Any subcontracted work will need to be approved by the K&O Railroad prior to any work starting.
- As of January 1, 2021, all contractors will be required to complete WATCO Contractor Orientation at <https://watcocontractor.com>. Any contractor who was previously enrolled in e-SHORTLINE with Watco in the past, will be required to complete the WATCO Contractor Orientation.

#### Work Windows

Impact to current railroad operations must be kept to a minimum. When work must take place that causes an active track to be taken out of service for the purposes of performing work that pertains to the project, the contractor must pre-arrange a defined work window with the railroad. Contractor can anticipate a work window of no more than a two-day rail closure/crossing. No more than four-day road closure is allowed as this will greatly affect the local area. Allow time for city to apply HMA for the approaches and time to harden before road is re-opened to the public. This topic will be further discussed during the pre-proposal meeting.

#### Standards

All standards referenced by the project plans and specifications, as well as all applicable AREMA standards must be upheld during all phases of the project work, unless certain standards are excluded from the project with written approval by the K&O Railroad.

#### Submittals

The following documents shall be submitted by the contractor as part of the project—at the times listed:

- Schedule of Work – Submitted with proposal

- Certificate of Insurance – Submitted prior to construction

- Utilities – Contractor is responsible to locate and protect site utilities.
- Site Clean-up – Contractor is responsible for proper site restoration and proper disposal of materials removed in accordance with all local, state, and federal laws.

#### Insurance

Contractor shall purchase required coverage and submit for verification a Certificate of Insurance.

#### Materials

All materials shall meet the requirements found in the project plans and/or specifications as well as applicable AREMA requirements. Material storage is granted on railroad right of way to the contractor. However, no materials shall be stored closer than 15' from the centerline of any active track, at any time. Material and equipment laydown areas and reclaimed materials stockpiling locations shall be discussed and further clarified at the pre-proposal meeting. Contractor is to haul all materials off property and properly dispose of. Contractor may use the K&O Orient yard and/or Santa Fe/Gilbert area for material lay-downs if need be.

#### Non-Project Areas

The K&O Railroad has secured access to the project through the railroad right of way. Other access may be obtained by the contractor if he/she so chooses. All areas (public, private, and railroad right of way) that are used for access to the project, including parts of the railroad right of way which have no proposed work, shall be maintained and/or remediated, incidental to the project, by the contractor to the satisfaction of the property owner if any damage to these areas occurs.

#### Pre-Proposal Meeting

The K&O Railroad shall hold a pre-proposal meeting at 10:00 a.m. (CST) Friday, February 25th, 2022, at the Harry Street/K-42 crossing (DOT # 445172N) in Wichita, Kansas.
