Kansas Development Finance Authority

Notice of Hearing

A public hearing will be conducted at 9 a.m. Thursday, July 24, in the offices of the Kansas Development Finance Authority, 555 S. Kansas Ave., Suite 202, Topeka, on the proposal for the KDFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank which then, through the KDFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 000903 – Maximum Principal Amount: \$175,000. Owner/Operator: Ryan M. and Tiffany Kramer. Description: Acquisition of 78 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes. The project is being financed by the lender for Ryan M. and Tiffany Kramer and is located at Section 15, Harrison Township, Nemaha County, Kansas, approximately 2 miles north of Goff on County Road Q.

The bond, when issued, will be a limited obligation of the KDFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the KDFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be suffi-

cient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all written comments previously filed with the KDFA at its offices at 555 S. Kansas Ave., Suite 202, Topeka, 66603, will be considered. Additional information regarding the project may be obtained by contacting the KDFA.

A copy of the proposed regulations and economic impact statements may be obtained by contacting the office of general counsel at the address above prior to the date of the hearing or by email to ogc@ksde.org.

A summary of the proposed regulations and economic impact follows:

K.A.R. 91-1-200. A definition of standard teaching license has been added.

K.A.R. 91-1-201. This regulation establishes the types of licenses issued by the state board, the validity period and the grade levels associated with each type of license. It is amended to add a STEM license valid for grades 8-12, for the current or upcoming school year. The new license accommodates HB 2506, which provides for a teaching license to be issued to individuals holding a degree in science, technology, mathematics, engineering, finance or accounting with five years of experience in the subject matter and an offer for hire.

K.A.R. 91-1-202. Edits reflect the proposed change in names for endorsements from adaptive and functional special education to “high incidence special education” and “low incidence special education.” New endorsements for the direct entry special education programs are established as “elementary education unified” and “special education generalist — high incidence.” “Elementary education” is proposed to replace the current endorsement name “early childhood through late childhood generalist.” Lastly, language referencing a professional education component for special education programs has been edited to reflect updates in the professional education standards.

K.A.R. 91-1-203. This regulation establishes the requirements for all licenses. Edits reflect the following changes:

- Graduate GPA requirement:
 - clarification that a GPA requirement for school leadership and school specialist license only involves the coursework for the respective programs, not comprehensive graduate level coursework
- Leadership hierarchy:
 - establishes a hierarchy that district leaders must first complete building-level leadership programs
- Experience for leadership license:
 - increases the number of required years of experience for leadership license from three to five years
 - provides greater flexibility by starting to count the accredited experience beginning with the initial license rather than only counting experience under the professional-level license
- Mentoring as the performance assessment:
 - formalizes into regulation action by the board in 2008
 - strengthens the mentoring requirement by requiring that the mentoring programs are based on model mentor guidelines
- Teacher leader section:
 - edit to the experience requirement clarifies that teacher leader is available for all educators with a classroom teaching background
 - removes sunset date to allow teacher leader license to continue
 - inserts new sunset date in section regarding the assessment to allow additional time for development of the assessment

- Provisional license for special education:

- edits to reflect the name change in adaptive and functional and to insert deaf or hard of hearing and visually impaired to correct their omission from this section

K.A.R. 91-1-204. Amendments to this regulation fall into two categories. The first are edits that align to the edits as previously shown, made in 91-1-203 for leadership and specialist licenses. The second group of amendments provides additional flexibility for out-of-state applicants:

- Edits for leadership and specialist licenses:

- graduate GPA, hierarchy and experience for leadership to align with amendments in 91-1-203
- edit to simplify language by using the term standard license

- Amendments for increased flexibility:

- **teaching:** for equitability across all states, removed requirement to have achieved the professional-level teaching license out-of-state in order to receive the professional-level license as their first Kansas license. Replaced “professional” license with “standard” license
- **school leadership and school specialist:** added a new option for school leadership and school specialist out-of-state license holders to come in at the professional license level based on amount of experience
- **alternative route completers:** acceptance of set amount of successful experience in lieu of Licensure Review Committee appeal

K.A.R. 91-1-220. Amendments to this regulation accomplish three things:

- Revision of existing Restricted/Full Technical Certificate

- align with cluster/pathways language
- professional education delivery through IHE or other approved provider

- Career and Technical Education Specialized Certificate

- request for issuance by LEA
- verify occupational competency (multiple options dependent on the technical area)
- for part-time assignment; limited to LEA requesting
- three years, renewable upon request

- Ability for educators to add new CTE subject based only on verification of occupational competency

The Kansas State Board of Education does not anticipate any financial or economic impact on the proposed regulations.

K.A.R. 16-11-7. Signage. This amends the existing regulation 16-11-7 to coordinate with new open carry signage requirements that are set out in proposed new regulation 16-13-1.

K.A.R. 16-13-1. Open carry signs. This new regulation speaks specifically to the open carry signage required under 2014 House Bill 2578, section 5. A wholly new sign prohibiting open carry is required; current signs prohibiting licensed concealed carry are allowed to also prohibit open carry of firearms; and derivations of these signs are proposed, such as prohibiting licensed concealed carry and allowing open carry.

Economic Impact: The Attorney General anticipates that there should be little, if any, economic impact on public or private buildings due to these proposed sign requirements.
