Instructions for LOI

The main text of the consultant's LOI must not exceed four (8.5" x 11") pages to address the topics listed below. LOIs shall address and include the following items:

- Project manager/engineer in charge.
- Provide name(s), qualifications, education, training, and expertise as well as prior relevant experience of consultant personnel intended to perform services.

Qualifications-Based Selection Process

No cost or pricing information shall be submitted with the LOI and will not be considered in the selection process to shortlist or rank proposals. Based on the qualifications submitted in the LOI and other information available to KDOT, on or about October 21, 2020 KDOT will shortlist three to five firms and notify all firms submitting LOIs of the names of the shortlisted firms by return email. Thereafter, KDOT will issue a Request for Proposal (RFP) to the shortlisted firms soliciting a technical proposal. At KDOT's option, shortlisted firms may be interviewed by telephone conference call or asked to attend meetings or participate in other discussions with KDOT. Technical proposals will be evaluated on the basis of the factors listed below, evenly weighted, to rank the most qualified firm in order of preference as first, second, and third: 1) quality of the response; 2) experience and expertise of staff designated for project; 3) workload of the firm; and 4) past performance history. The highest

ranked firm will be asked to enter into negotiations with KDOT for a contract, with compensation provisions for payment of actual direct costs plus fixed fee, subject to an upper limit of compensation. In the event KDOT cannot reach agreement with the highest ranked firm, it will terminate negotiations with such firm and commence negotiations with the next highest ranked firm, and so on, until either agreement is reached for a satisfactory scope of services for a fair and reasonable price, or KDOT decides to pursue other alternatives.

Project

KDOT Statewide Mobile LiDAR Safety Asset Data Collection and Extraction.

Background and Purpose of Project

To improve its ability to make data-driven decisions for safety investment into Kansas highways, the Kansas Department of Transportation (KDOT) is initiating a project to develop complete datasets of safety-related roadway and roadside features. It is anticipated that data collection will be conducted primarily using mobile LiDAR technology and high-resolution imagery, and that this project will include both data collection (Phase 1) and feature extraction (Phase 2) to establish a statewide inventory for four primary safety assets: shoulders, guardrail, intersections, and signs. Additional feature extraction may be considered as part of this project. KDOT prioritizes gathering FHWA's "Model Inventory of Roadway Elements" (MIRE) data to work toward compliance with federal guidance. KDOT desires to have the consultant/vendor store the data and provide an interface for KDOT to view imagery and take measurements as needed.

KDOT is asking proposers to describe their approach to: data collection; feature extraction for the four primary datasets; feature extraction for desired additional assets or asset characteristics; value-added features or services; data ownership, storage, and licensing; data validation and quality control; deliverable format and conflation with KDOT's linear reference system; and fee structure.

The following sections of this Request for Proposal (RFP) provide details on the project scope, deliverables, and letter of interest requirements. Following review of the proposals, KDOT will invite a subset of proposers to participate in a virtual interview to further explain their approach to addressing KDOT's safety asset management business needs and answer any questions KDOT has about the proposed approach.

Schedule

KDOT will look to proposers to provide a schedule for data collection and extraction that is reasonable and accounts for potential schedule delays or interruptions due to weather or other factors. KDOT would like to complete the project, including data collection, data extraction, and submission of database deliverables, as quickly as possible. The project is tied to the 2021 federal fiscal year, which requires a non-negotiable project completion by September 30, 2021.

Budget

KDOT has secured approximately \$2 million dollars (\$1 million for Phase 1 data collection and \$1 million for Phase 2 data extraction) in NHTSA and state funding to be used in Federal FY 2021 toward the development of statewide safety feature asset datasets using mobile LiDAR. KDOT considers this an upper limit on the funds that will be allocated toward this project. Proposers will be evaluated, in part, on the number of safety features they can extract within this funding limit.

Scope of Services to Be Performed

1. Data Collection

KDOT desires that proposers will use mobile LiDAR and high-resolution images collected from a vehicle moving at or near highway speeds for as much of the data collection activities as possible. Data collection shall not require lane closures or Maintenance of Traffic and shall not disrupt the normal operation of the highways.

Data will be collected along the entire state highway system, which includes 8,909 centerline miles of undivided highway and 1,620 centerline miles of divided highway. This project includes the Kansas Turnpike, but does not include ramps or city and county roadways. Offeror shall decide how many passes on each route must be run to meet the project goals.

Images must not be collected during rainstorms, dust storms, with snow cover, at night or during any other factors that will obscure the image quality and detail. The proposer will be responsible for developing a plan to ensure data collection and extraction is not limited by work zone activity.

2. Data Extraction

KDOT has prioritized four safety asset groups for collection and extraction as part of this project. Extracted data will be cataloged in new databases developed by the proposer (rather than filled into existing partial databases.) KDOT will work with the selected team to develop database templates based on the agreed upon extract data elements. The specific features desired for each safety asset group are described below.

For each of the four datasets, the offeror will develop a plan to extract as many of the listed or referenced data elements and attributes as is reasonably feasible within the project limits. Proposers are encouraged to explain the level of manual reduction required to obtain specific data elements, to suggest a recommended frequency of measurement (for longitudinal elements), and to describe the level of precision in measurement that can be provided. Proposers are encouraged to discuss trade-offs between the extraction of various elements and attributes to help KDOT prioritize which data elements should be included in this project. Following proposal selection, KDOT and the selected contractor/vendor team will work to finalize the list of data elements to be extracted that provide the greatest value to the agency within the available resources of the project. Once the list of data elements has been selected for extraction, KDOT will develop a data dictionary for those elements.

a. Intersections

KDOT desires to obtain all MIRE 2.0 intersection and intersection approach data elements that can be reasonably collected and extracted using LiDAR and associated imagery data. Features that cannot be determined from point cloud and imagery (such as traffic volumes or roadway functional classification) are exempt. (The list of intersection and intersection approach MIRE 2.0 elements can be found here: <https://safety.fhwa.dot.gov/rsdp/downloads/fhwasa17048.pdf>)

At this time, KDOT does not plan to collect LiDAR data on non-state route intersection approaches or on interchange ramps beyond what can be identified from data collection along the state route approaches.

b. Shoulders

KDOT requires reliable shoulder width data to apply their updated rumble strip policy, to identify bicycle routes, and to conduct safety analyses. Many of Kansas's rural two-lane highways were designed with 3-ft

(continued)

shoulders, but these shoulders have not been consistently maintained as the travel lanes have been improved, resulting in pavement that no longer provides a reliable paved surface.

KDOT desires to develop a shoulder width inventory that includes as many of the MIRE 2.0 data elements as feasible. Desired data elements include:

- Right and left shoulder type (paved, aggregate, turf, composite)
- Right and left full shoulder width (including paved and unpaved) from edgeline stripe to grade change
- Right and left paved shoulder width (from edgeline stripe to outside edge of any pavement present)
- Right and left maintained paved shoulder width (most recent pavement, from the edgeline stripe to the edge of the first pavement drop off)
- Right and left shoulder presence and type of rumble strips
- Rumble strip offset from stripe
- Rumble strip width
- Data collection date

c. Guardrail

KDOT intends to develop a database of roadside safety devices, placing a priority on guardrail and guardrail end treatments to identify locations that must be upgraded or replaced. Desired data elements include:

- Roadside safety device ID
- W-Beam Guardrail (identified as either Midwest Guardrail System or Conventional Guardrail System)
- Guardrail splice location (mid-span vs. at post locations)
- Guardrail location (beginning and end points)
- Guardrail length
- Side of the road
- End treatment type (Standard Drawing Packet will be provided)
- Guardrail height from ground
- Guardrail height from adjacent pavement surface
- Guardrail post spacing
- Guardrail post type
- Guardrail offset from edge of pavement
- Object/condition behind guardrail (bridge, pole, embankment, culvert, etc.)
- Location information for guard cable
- Location and type of other median barriers
- Location and type of roadside crash attenuators
- Location, height, and length of single wire cable
- Location, length, and type (manufacturer) of Cable Median Barrier (CMB)
- Location, length, and type (F-Shape, NJ Shape, Vertical, Near Vertical, Single Slope, etc.) of concrete barrier (roadside and median)
- Location, length, and type of concrete bridge rail
- Other non-standard miscellaneous devices that do not fall into broad categories
- Data collection date

d. Signs

KDOT intends to develop a sign inventory to track number and location of signs by type for MUTCD com-

pliance tracking, maintenance, and replacement programs. Desired data elements include:

- Sign ID
- Sign location (point, route, and milepost)
- Sign category (regulatory, warning, guide, reference marker/mile post, general information, general service, specific service (logos and TODS), and school)
- MUTCD identifier (where applicable)
- KDOT sign identifier (where applicable; KDOT sign catalog to be provided)
- Sign location on the roadway (right side, left side, median/island, overhead)
- Sign legend (for signs with a variable or non-standard legend, such as speed limit signs and wayfinding signs)
- Sign orientation/facing direction of the sign (azimuth angle 0-360)
- Sign install date (read from sticker on back of sign)
- Sign height
- Sign width
- Sign description for non-standard signs (or stored image)
- Sign post type
- Sign assembly location (for signs on the same post, position identifier)
- Data collection date
- Sign description for non-standard signs (or stored image)
- Sign structure type (overhead bridge mount sign structures)

There are approximately 750,000 highway signs in Kansas. KDOT expects all signs that can be identified in the LiDAR point cloud/imagery collected along the state highway system to be included in the inventory, even if such signs are on minor route approaches to the state highway (such as stop signs). KDOT does not require the cataloging of Type 2 or Type 3 object markers.

e. Additional data (optional)

Additional data elements/features that KDOT may wish to include in the project scope include:

- Presence of sidewalks
- Presence of bike lanes
- Driveway count by type
- Median width
- Horizontal and vertical curvature
- Side slope and side slope width
- Clear zone width (or roadside object offset)
- Bridge clearance height
- Pavement overlay edge drop-off and height
- Pavement stripe width and color (specially to mark passing and no passing locations)
- Gore points

Instructions for Proposal

The main text of consultant's proposal must not exceed twenty (8.5" x 11") pages to address the topics listed below. Proposals shall address the following items:

1. Staffing Plan

Include the following information to describe the proposed team and staffing plan:

- Name, address, and phone number for each proposed organization on the team
- Provide the name and contact information for the project manager
- Provide name, contact information, anticipated role, qualification, education, training and expertise as well as prior relevant experience of all key staff intended to perform services.

Include a COVID plan describing contingency for completing the project should the project team be impacted by the novel coronavirus prior to or during data collection/extraction.

2. Data Collection

Please describe your proposed methodology for collecting the LiDAR data and associated imagery data, including the range/distance from vehicle that can be captured, the level of precision that can be obtained, the level of precision and accuracy required for extraction of the features identified in the scope, and the extent of features and geometries that are generally visible and extractable

from the raw data for both divided and undivided highways. Describe data collection strategies to prevent work zones from impeding data extraction.

3. Data Extraction

For each of the four safety asset groups listed in the scope, please describe your methodology for developing an inventory of the identified elements, including a list of the features that can be reasonably extracted and included in an inventory database and a list of the features identified in this RFP that cannot be easily extracted within the constraints of this project. Describe the extent of machine learning/automation that can be applied to feature extraction and the extent of manual data extraction or verification that would need to be provided by a human. Identify the features that can be collected for non-state route intersection approaches. Describe how intersections on divided routes will be handled.

For secondary optional additional data elements, please describe the relative complexity of extracting one or more of these data elements in terms of required resources needed to develop an inventory. Indicate if efficiencies can be realized collecting any of these items in conjunction with the primary data elements described in the scope.

4. Data Format and Conflation with Existing Data

KDOT will provide the awarded team with the Linear Referencing System (LRS) for the highway network. All features extracted must be referenced to the LRS and include geometry. Please include a statement indicating how this will be accomplished.

5. Data Validation and Quality Control Process

Please describe your team's process for assuring data quality, both for the raw point cloud/imagery data, as well as for the extracted data. Address data completeness (ensuring all features are extracted); precision of location data; precision of measurements of length, width, height, and distance; and how changes in continuous data (such as shoulder width) are detected and recorded. Propose an approach for pilot data collection and extraction for KDOT review and approval. Describe how the data collection and extraction plans may be modified to address KDOT concerns or questions regarding data quality or completeness.

6. Value Added Services and Capabilities

Please describe innovative or value-added services, products, or processes your team can offer to:

- Enhance the user experience when viewing and extracting features from the raw data in the future (features not collected as part of this project)
- Improve data quality or reliability
- Improve data extraction efficiency to allow more data extraction for a lower cost

7. Data Ownership, Storage, and Access

KDOT requires to retain ownership of the raw collected data, the raw extracted data, and the final data deliverables, as well as the ability to grant access of the data to planning, safety and design partners, including cities, counties, consultants, and vendors. KDOT prefers the vendor to maintain the collected and extracted data on their own servers and to provide access to such data

(continued)

through a web-based user interface with tools for viewing and extracting features from the data. In addition, KDOT requires that the raw collected data be provided to the Data Access and Support Center (DASC) at the University of Kansas, which serves as a repository of LiDAR and other Geospatial data for the State of Kansas.

Please describe your ownership and licensing models, as well as your proposed terms for providing access to the data for KDOT and its partners including length of time for which the data and user interface will be available for use and cost structure. Describe the system requirements required to successfully access and use the data stored by the vendor.

8. Schedule

Please provide a preliminary schedule for the completion of data collection and extraction. Include time for KDOT to review preliminary data and provide requested changes to the data collection and extraction methodology. Show any anticipated meetings, interim deliverables, and final deliverables. Project must be complete by September 30, 2021.

9. Cost Structure

KDOT selection will be based on qualifications. We are not requesting a cost proposal with this qualification's proposal. However, we recognize that different vendors and teams may prefer to use different cost structures for their services. Please describe your preferred cost structure. Identify work tasks that will be charged as a fixed price, cost per mile, cost per feature extracted, etc. Indicate if future access to collected data stored by the vendor and accessed through vendor-proprietary software incurs an additional cost beyond the cost of data collection and extraction. Indicate if DOT partners would incur a cost to access and view the data stored by the vendor and viewed through vendor-proprietary software.

10. Past Performance

Provide 3 to 5 descriptions of projects completed by the proposing team or individual team members that were similar in scope or that required similar capabilities. Describe how the project demonstrates experience relevant to the work described in the scope section of this RFP. Describe the deliverables developed for the project. When possible, include client contact information for a for each project.

Notice of Hearing

A public hearing will be conducted at 9:00 a.m. Monday, October 19, 2020, in the offices of the Kansas Development Finance Authority (K DFA), 534 S. Kansas Ave., Suite 800, Topeka, on the proposal for the K DFA to issue its Agricultural Development Revenue Bond for the project numbered below in the respective maximum principal amount. The bond will be issued to assist the borrower named below (who will be the owner and operator of the project) to finance the cost in the amount of the bond, which is then typically purchased by a lender bank who then, through the K DFA, loans the bond proceeds to the borrower for the purposes of acquiring the project. The project shall be located as shown:

Project No. 001068 Maximum Principal Amount: \$98,223.35. Owner/Operator: Clinton and Kelly Meyer; Description: Acquisition of 43 acres of agricultural land and related improvements and equipment to be used by the owner/operator for farming purposes (the "Project"). The Project is being financed by the Lender for Clinton and Kelly Meyer (the "Beginning Farmer") and is located at Section 16, Powhattan South Township, Brown

County Kansas, approximately 3.5 miles south of Powhattan, Kansas on Goldfinch Road.

The bond, when issued, will be a limited obligation of the K DFA and will not constitute a general obligation or indebtedness of the state of Kansas or any political subdivision thereof, including the K DFA, nor will it be an indebtedness for which the faith and credit and taxing powers of the state of Kansas are pledged. The bond will be payable solely from amounts received from the respective borrower, the obligation of which will be sufficient to pay the principal of, interest and redemption premium, if any, on the bond when it becomes due.

As part of the ongoing efforts to limit the spread of novel coronavirus in Kansas, interested individuals may participate in the public hearing via conference call. Please call toll free 866-620-7326 and use conference identification number 159 722 1260 followed by # to join the conference.

All individuals who appear at the hearing will be given an opportunity to express their views concerning the proposal to issue the bond to finance the project, and all written comments previously filed with the K DFA at its offices at 534 S.  Doc. No. 048482

State of Kansas

**Department of Health and Environment
 Division of Health Care Finance**

**Notice of Hearing on Proposed
 Administrative Regulation**

The Kansas Department of Health and Environment (KDHE), Division of Health Care Finance, will conduct a public hearing at 9:00 a.m. Thursday, December 3, 2020, to consider the adoption of proposed permanent regulation K.A.R. 129-6-103. Due to continuing concerns over COVID-19, the hearing will be held by teleconference hearing instead of an in-person hearing. To participate in the teleconference hearing, a participant should call 1-866-620-7326 and enter conference code 8141969688#.

Summary of Regulation

K.A.R. 129-6-103 Determined eligibles; income standards. The regulation amends the Kansas Medicaid income eligibility standard for Kansas Medicaid members receiving Home- and Community-based Services (HCBS). The proposed amendment to K.A.R. 129-6-103 updates the protected income level (PIL) from \$727 per month to \$1,177 per month.

Economic Impact

A Medicaid protected income level is the amount of income that a Medicaid member may retain and still be eligible for Medicaid. In 2019, the Kansas Legislature changed the HCBS PIL to \$1,177 per month in Chapter 68, 2019 Kansas Session Laws (the omnibus appropriations legislation). In 2020, the Kansas Legislature re-affirmed the HCBS PIL level of \$1,177 per month in Chapter 5, 2020 Kansas Session Laws (the omnibus appropriations legislation). Since this involved Kansas Medicaid, KDHE sought and the Centers for Medicare and Medicaid Services (CMS) approved the HCBS PIL change to \$1,177 per month effective September 1, 2019. As a result, KDHE does not anticipate any economic impact on businesses, communities or local government. KDHE anticipates an indirect economic benefit to Kansas Medicaid HCBS recipients since they may have more personal income to spend. A detailed economic impact is provided in the economic impact statement that is available from the agency contact person listed below.

Notice and Contact

The time period between the publication of this notice and the scheduled hearing constitutes a 60-day public comment period for the purpose of receiving written public comments on the proposed regulation. All interested parties may submit written comments prior to 5:00 p.m. on the day of the hearing by postal service to Dorothy Noblit, Kansas Department of Health and Environment, Division of Health Care Finance, 900 SW Jackson, Suite 900, Landon State Office Bldg., Topeka, KS 66612, by email to Dorothy.noblit@ks.gov, or by fax to 785-559-4272. During the hearing, all interested parties will be given a reasonable opportunity to present their views orally on the proposed regulation as well as an opportunity to submit their written comments. It is requested that each individual giving oral comments also provide

(continued)

a written copy of their comments for the record. In order to give each individual an opportunity to present their views, it may be necessary for the hearing officer to request that each presenter limit an oral presentation to an appropriate time frame.

Questions pertaining to the proposed regulation should be directed to the contact noted above.

Board of Barbering

Notice of Hearing on Proposed Administrative Regulation

A public hearing will be conducted at 2:00 p.m. (CST) Monday, December 7, 2020 via teleconference, to consider the adoption of a proposed regulation K.A.R. 61-4-3 of the Kansas Board of Barbering on a permanent basis. To participate call 1-866-620-7326 at the designated time. When prompted, enter the following conference code number 7852962211, followed by the pound sign (#). If asked if you are the leader, do nothing. When prompted, state your name. You will then be placed in a holding pattern until all participants are on the line. Public comments will be limited to written and/or telephonic comments only.

This 60-day notice of the public hearing shall constitute a public comment period for the purpose of receiving written public comments on the proposed rule and regulation. All interested parties may submit written comments prior to the hearing to the Kansas Board of Barbering, 700 SW Jackson Suite 1002, Topeka, KS 66603 or by email to KBOB@ks.gov. All interested parties will be given a reasonable opportunity to present their views orally regarding the adoption of the proposed regulation during the public hearing. In order to provide all parties an opportunity to present their views, it may be necessary to request that each participant limit any oral presentation to five minutes.

Any individual with a disability may request an accommodation in order to participate in the public hearing and may request the proposed regulation and economic impact statement in an accessible format. (Note: Statements indicating that a regulation is “not anticipated to have any economic impact” are intended to indicate that no economic impact on the Board of Barbering, other state agencies, state employees, or the general public has been identified.)

Copies of the proposed regulation and the Economic Impact Statement for the proposed regulation can be obtained by sending an email to KBOB@ks.gov requesting a copy of the documents, or the documents can be viewed at https://sos.ks.gov/publications/pubs_kar_inprocess.aspx.

A summary of the proposed new regulation and the economic impact follows:

K.S.A. 74-120 requires each licensing board to adopt a regulation listing the types of civil or criminal records that could disqualify an application from receiving a license. This regulation ensures that persons are not automatically disqualified from receiving a barber license, shop license, or school license based on criminal history or civil records. This regulation lists the felony and misdemeanor offenses that may disqualify an applicant. This regulation also meets the statutory requirement that each board provide persons with a civil or criminal record a mechanism to petition for a review of their history and their explanation of the surrounding events, prior to making application for a license.

Economic Impact Statement Summary

There is no anticipated economic impact from this regulation. The only cost would be the application fee authorized by statute for any individual wishing to utilize the petition process and the offsetting cost to KBOB as an agency for reviewing and documenting the petition process.

ing written public comments on the proposed rules and regulations. Summaries of the proposed amendments and revocations and their economic impact follow. (Note: Statements indicating that a regulation is not anticipated or expect to have economic impact are intended to indicate that no economic impact on the Kansas Human Rights Commission, other state agencies, state employees, other governmental entities, or the general public has been identified.)

Copies of the proposed amendments and revocations of regulations and of the Economic Impact Statements can be located at http://www.khrc.net/Proposed_Regulations/Proposals.pdf. They can also be obtained from the Kansas Human Rights Commission, 900 SW Jackson, Suite 568-S, Topeka, KS 66612-1258 or by email to Ruth.Glover@ks.gov.

Revocation of K.A.R. 21-40-10. This is a proposed revocation of a regulation that conflicts with federal law and creates inconsistent procedures for the KHRC to follow. In this regulation, the KHRC directs itself to put complaints filed with the KHRC on a docket available to the public; regardless of whether they were determined to be valid or not. However, the KHRC also receives discrimination charges from the Equal Employment Opportunity Commission ["EEOC"]. Federal law directs the KHRC to maintain confidentiality of those EEOC complaints. This revocation would not affect the ability of a party to disclose their own complaint or response. The revocation is not anticipated to have any economic impact.

Revocation of K.A.R. 21-41-1. This proposal revokes a regulation that is unnecessary because it is self-directing and summarizes provisions of K.S.A. 44-1005 (a) and (b). No economic impact is anticipated.

Amendment of K.A.R. 21-41-2. This amendment clarifies that both a complaint and the response to it are to be written; and may be submitted on paper, or by email or facsimile. No economic impact is anticipated.

Amendment of K.A.R. 21-41-3. This proposal changes the heading to clarify that the regulation applies to complaints. It is not expected to have any economic impact.

Revocation of K.A.R. 21-41-4. This proposal revokes a regulation that is unnecessary and confusing: This regulation partially summarizes K.S.A. 44-1005(j); and is also confusing because a different, K.A.R. 21-40-12, directs the manner of computing time. The revocation is not expected to have any economic impact.

Amendment of K.A.R. 21-41-6. The proposed amendment clarifies that a complaint may be supplemented as well as amended; and that these procedures cannot be used to bring new claims that are time-barred. The amendment is not expected to have any economic impact.

Amendment of K.A.R. 21-41-8. This amendment clarifies when there are multiple respondents, the determinations on jurisdiction and probable cause are made separately as to each respondent; so that a lack of jurisdiction or finding of no probable cause may result in dismissal as to fewer than all of the respondents. It also explains the conditions under which a complaint will be dismissed due to administrative expedience. No economic impact is expected.

Amendment of K.A.R. 21-41-10. This amendment clarifies when a complaint may be dismissed or suspended due to a civil or criminal lawsuit being filed on the same matter. No economic impact is expected.

Revocation of K.A.R. 21-41-11. This proposed revocation would eliminate an unnecessary regulation. Service of any complaint on each respondent is already required by statute, K.S.A. 44-1005(d). No economic impact is expected.

88-29d-9. Admission policies. This regulation shall be applicable to the university of Kansas' review of applicants beginning with the 2021 summer session. The chancellor of the university of Kansas or a designee shall

establish admission policies that meet all of the following requirements:

(b) The policies shall specify the materials required for a complete application file.

(c) The policies shall address the enrollment of both degree-seeking and non-degree-seeking students as well as each student's transition from degree-seeking to non-degree-seeking status or from non-degree-seeking to degree-seeking status. Policies shall mandate that each non-degree-seeking student who applies to enroll as a degree-seeking student shall be admitted only if one of the following conditions is met:

(1) The student meets the applicable requirements specified in K.A.R. 88-29b-4 through 88-29b-7a, K.A.R. 88-29d-5, and K.A.R. 88-29d-7.

(d) The policies shall include an explanation of the exception windows and the university of Kansas' method to determine which applicants would be admitted if there were more applicants than the university is allowed under K.A.R. 88-29b-8, K.A.R. 88-29b-8a, K.A.R. 88-29b-8b, or K.A.R. 88-29b-8c.

(e) The policies may include the establishment of sub-categories of non-degree-seeking students.

(f) The policies shall include a statement indicating whether the university of Kansas will consider, in the admission decision, any postsecondary credit from an institution that is not accredited and has not been granted preaccreditation status by an agency recognized by the United States department of education or by an equivalent international agency. If the university considers these credits, the admission decision shall be made in accordance with K.A.R. 88-29-4 or K.A.R. 88-29b-4.

(g) The policies shall include a statement of whether the university of Kansas enrolls students in the temporary or provisional admission category.

(1) If the university of Kansas enrolls any students in the temporary admission category, the policies shall include the following:

(A) A description of requirements for exiting the temporary admission category and entering another admission category;

(B) a statement that a temporarily admitted student may be denied admission to a specific degree program;

(C) a statement that each student who fails to exit from the temporary admission category within the specified period of time shall be disenrolled; and

(D) a statement that each applicant who is admitted in the temporary admission category pursuant to K.A.R. 88-29d-10(a)(2) shall be allowed to exit from the temporary admission category and enter the regular admission category only upon verification of high school graduation.

(2) If the university of Kansas enrolls any students in the provisional admission category, the policies shall include the following:

(A) A description of requirements for exiting the provisional admission category and entering another admission category;

(B) a statement that any student admitted in the provisional admission category may be denied admission to a specific degree program; and

(C) a statement that each student who fails to exit from the provisional admission category within the period of time specified by the university shall be disenrolled.

(3) The policies shall mandate that a student who meets the criteria for both the temporary and provisional admission categories shall not be granted regular admission until the student fulfills the requirements for exiting each of the categories in which the student is initially enrolled.

(h) The policies shall be required to be approved in advance by the board of regents. (Authorized by and implementing K.S.A. 76-717; effective Oct. 16, 2020.)

88-29d-10. Methods for evaluating qualifications for admission. This regulation shall be applicable to the university of Kansas' review of applicants beginning with the 2021 summer session.

(a) The admission officer at the university of Kansas shall consider each applicant's ACT or SAT scores as follows:

(1) A documented score of 1060 on the SAT, excluding the writing portion of the SAT, shall be deemed the equivalent of a composite score of 21 or superscore of 21 on the ACT for purposes of this article of the board of regents' regulations. A documented score of 1160 on the SAT, excluding the writing portion of the SAT, shall be deemed the equivalent of a composite score of 24 on the ACT for purposes of this article of the board of regents' regulations.

(2) A documented composite score or a documented superscore of 21 or above on the ACT may be used to admit an applicant in the temporary admission category after the applicant's completion of the sixth high school semester, without further review of the applicant's materials.

(3) The admission officer shall consider the applicant's best ACT-issued composite score or superscore for admission decisions.

(4) If an applicant has taken both the ACT and the SAT, the admission officer shall consider the applicant's better score on the two tests for admission decisions.

(b) If the high school has not already calculated the overall grade point average and provided that information on the official high school transcript, the admission officer at the university of Kansas shall calculate the overall grade point average for any applicant seeking admission pursuant to K.A.R. 88-29d-5, or K.A.R. 88-29d-7, as follows:

(continued)

(1) The admission officer shall calculate a grade point average only for courses appearing on the applicant's official high school transcript.

(2)(A) If the high school transcript reports grades on a four-point scale, the admission officer shall calculate grade point averages by assigning four points to a grade of A, three points to a grade of B, two points to a grade of C, one point to a grade of D, and zero points to a grade of F. Pluses and minuses shall not be considered in the calculation.

(B) If the high school transcript reports grades on a scale other than a four-point scale, the admission officer shall mathematically convert the grades to a four-point scale and assign points as described in paragraph (b)(2)(A).

(3) The admission officer shall consider grades of P or pass as follows:

(A) If the high school transcript indicates that a P is equivalent to a grade of D or higher, the admission officer shall assign one grade point to each grade of P.

(B) If the high school transcript indicates that a P is equivalent to a grade of C or higher, the admission officer shall assign two grade points to each grade of P.

(C) If the high school transcript does not indicate the minimum letter grade corresponding to a P, the admission officer shall assign one grade point to each grade of P.

(4) If an applicant has retaken a course, the admission

officer shall use the highest grade when calculating the grade point.

(5) If an applicant has taken a college course and if this college course appears on the official high school transcript, the admission officer shall calculate the grade for the college course, for purposes of determining the grade point average, as follows:

(A) Each college course with three or more credit hours, but no more than five credit hours, shall be treated as a one-unit high school course.

(B) Each college course with more than five credit hours shall be treated as a two-unit high school course.

(c) At the time of admission of an applicant, the university of Kansas shall notify the applicant of the following:

(1) The category or categories in which the applicant is admitted;

(2) any enrollment restrictions associated with the applicant's category or categories of admission; and

(3) the requirements for removing any enrollment restrictions associated with the applicant's category or categories of admission. (Authorized by and implementing K.S.A. 76-717; effective Oct. 16, 2020.)
